**MESSAGE FROM
FOUNDER &
PRESIDENT**

Dr. R Balasubramaniam

Dear friends,

There is so much change that is happening around all of us here in India. Whether it is the growing economic clout of the country or the increasing complexity of social sector challenges; we are living through times where the relevance, role and responsibility of Civil Society Organizations is changing rapidly. Preparing ourselves to not only survive but to be visible, relevant and maintain our independent voice is a constant learning process. And we at SVYM are doing just that! We have the determination and the commitment to lead the next generation of social progress and be fully involved in building a resurgent India.

We have reshaped the organization to make collective leadership a reality. We have taken important strategic steps and crafted a dedicated team of 16 people from across SVYM with differential areas of expertise and length of experience to form a broad group called the Strategy Delivery Group (SDG). This group will be mandated to deliver on the strategy that has been conceived to take SVYM to the next level within the next 18 months. We are also enhancing our ability to mobilize resources, communicate more effectively both internally and externally; enable IT systems to enhance our efficiency and effectiveness and leverage on the credibility and network that SVYM has built over the last three decades and more.

We are re-positioning our projects to be more community centric and reflect the articulated aspirations of all our partners and stakeholders. And, we will continue to run SVYM in a simpler, faster and more accountable way. We are refashioning our development narrative and ensuring that we stay healthy, agile, responsive and relevant in a volatile global situation.

Today, we offer our well-wishers, donors and the communities we partner with – a consistent attempt to build the human and social capital of the people that we work with. And our work not only continues to be noticed but reaffirmed by the many awards that we get. We were happy to be recognized as India's best large-sized NGO by the Rockefeller and EdelGive foundations and as having the best presented financial statements by the ICAI, India. We are confident that with the growing talent and dedication of our team members and the support of each one of you, we will continue to be one of India's leading development organizations.

Yours truly,

A handwritten signature in black ink, appearing to read 'Balasubramaniam'.

2 MESSAGE FROM SECRETARY & CEO

Dr. (Flt Lt) M A Balasubramanya

Dear friends,

It is with renewed enthusiasm that we share this Annual Report of our programs and finances of the year 2015-16. The inputs of many of you in the past year has enriched its content and presentation. Please accept our humble gratitude.

The year 2015-16 is indeed a mile stone in the journey of SVYM. The reentry of experienced senior members complementing the energetic young members revitalized the Governing Board. The board has earnestly embarked on a Mission – ‘SVYM Next 30’. Defining and organizing collective leadership, defining a globally validatable development paradigm, streamlining programs & processes, optimizing people strength and productivity, catalyzing a culture of creative expression of living our core values are the goal posts for this mission.

Contributions from Professionals in the field of Lean Management, Financial Management etc have already started enriching the organization. The younger members have already taken the baton of operationally leading all the current projects and institutions. A balanced expansion of projects/programs to other parts of the country while nurturing consolidation of the current programs and institutions is enabling the organization to have a national imprint. Vijnanavahini – the successful grassroots science education program is now facilitating establishment of similar program in Jharkhand and Orissa. As a nodal organization for Karnataka under the GFATM supported Public Private Partnership for Prevention of Parent to Child Transmission of HIV infection, SVYM is working in all 30 districts of Karnataka. Membership in State Committees for drafting policies for Medical Education-2030, Palliative Care Policy etc has offered space for our grassroots experience to influence policies. Engagements with India’s leading Corporate and Public sector undertakings has widened our experience and expertise in designing, implementing and monitoring of grassroots development projects.

Each passing day has not only enhanced the strength and professionalism of the team members but has also revitalized the ‘togetherness’. A new found ‘hope’ for 2016-17 is permeating in the environment. While this is true with people in the organization, the same cannot be told about the required ‘resources’. This is the time, we yearn more, for your love, for your ideas, your network, your guidance and support - to live our dream of touching more needy hearts, to be a model national organization for development and culture. Come be part of this life transforming journey.

Yours truly,

3 STORY OF SVYM

Idealistic foundations

The story goes back to 1984 when a group of students led by Dr.R.Balasubramaniam from the Government Medical College, Mysuru(in Karnataka State,India), with a radically different outlook on their future career and life, launched the Swami Vivekananda Youth Movement (SVYM) for the service of their poor and marginalized fellow-beings. The movement was inspired by the ideals and spirit of Swami Vivekananda, the patriot-saint and youth-icon of modern India. The medicos made humble beginnings by offering free medicines, blood ,consultation & counseling to poor patients. They later started weekly clinics in the nearby rural areas. In 1987, they were drawn to one of the most backward belts of Karnataka, Heggadadevanakote (HD Kote) taluk of Mysuru district with a considerable population of displaced and dispossessed communities of indigenous tribes. These people were living under highly distressing conditions that impacted the young doctors and gave them the mission of their lives.

A defining moment

Shifting to HD Kote proved to be a defining moment in the Movement, as it was from here that SVYM got all the nourishment to reach its present standing. The founder doctors naturally chose health as their entry point

and started a tribal hospital in January 1987 at Brahmagiri, a tiny hamlet in the tribal belt. Soon, they added a mobile health unit to reach out to distant tribal colonies. At this juncture, their service spirit and medical skills were their only assets and they had to overcome serious challenges to establish themselves in a wholly alien environment. But their perseverance and performance saw them through all their teething troubles.

Evolution without end

Gradually, the doctors discovered that they needed to integrate their medical services with solutions to other basic problems of the local populace, particularly poverty and illiteracy. They also found out that beyond the tribal belt, the rural poor of HD Kote taluk as a whole needed their services desperately. These eyeopeners triggered the explosion of the doctors' mission into a mighty movement that spans a whole cluster of institutions and a broad spectrum of development programmes today. SVYM has emerged as a holistic development organization, engaged in building human and social capital in India through its work from the grassroots levels, right through to policy-level action in Health, Education and Community Development. Today, the programs directly and indirectly impact more than 1.5 million people across the state of Karnataka.

This report captures a glimpse of the activities of the Swami Vivekananda Youth Movement for the period April 2015 – March 2016 across the sectors of health, education, socio-economic empowerment and training & research. This report aspires to present all our activities in a truthful and transparent manner and maximum efforts have been taken to verify the authenticity of our claims. To highlight key activities, improve readability and save paper, it has been our effort to use infographics throughout the document. We will be printing very limited copies of this report and will be circulating the e-version widely to all our partners and stakeholders.

The following icons have been used to highlight the focus of the activities of the organization in developing the human and social capital which will lead to economic consequences.

 **Human capital**

 **Social capital**

 **Economic capital**

   The icons highlighted in bold indicates the relevant capital that the particular activity focuses primarily on.

   The faded icon reflects that the focus is secondary.

We welcome you to email us at svym@svym.org.in your views and suggestions to improve this report.

HEALTH

Vivekananda Memorial Hospital
Saragur

HEALTH

The goal of health sector is sustaining quality of healthcare by providing equitable care with involvement of community in alignment with the organizational interpretation of core values.

Health care is delivered through a complementary framework of institution based and community based programs addressing all dimensions of health like -

Physical

Psychological

Economic

Social

Spiritual

INSTITUTION BASED PROGRAMS

SVYM runs two hospitals - Vivekananda Memorial Hospital Saragur and Vivekananda Memorial Hospital Kenchanahalli, as a part of the Institution Based Programs.

300,000 people including
18,000 tribals

24x7 multi-speciality services

>80% staff from local community

Integrative approaches of practicing
Allopathy, Ayurveda & Yoga

Facility up-gradation with addition
of 8 new medical equipment

Inclusive & integrated model of HIV
care & control programs

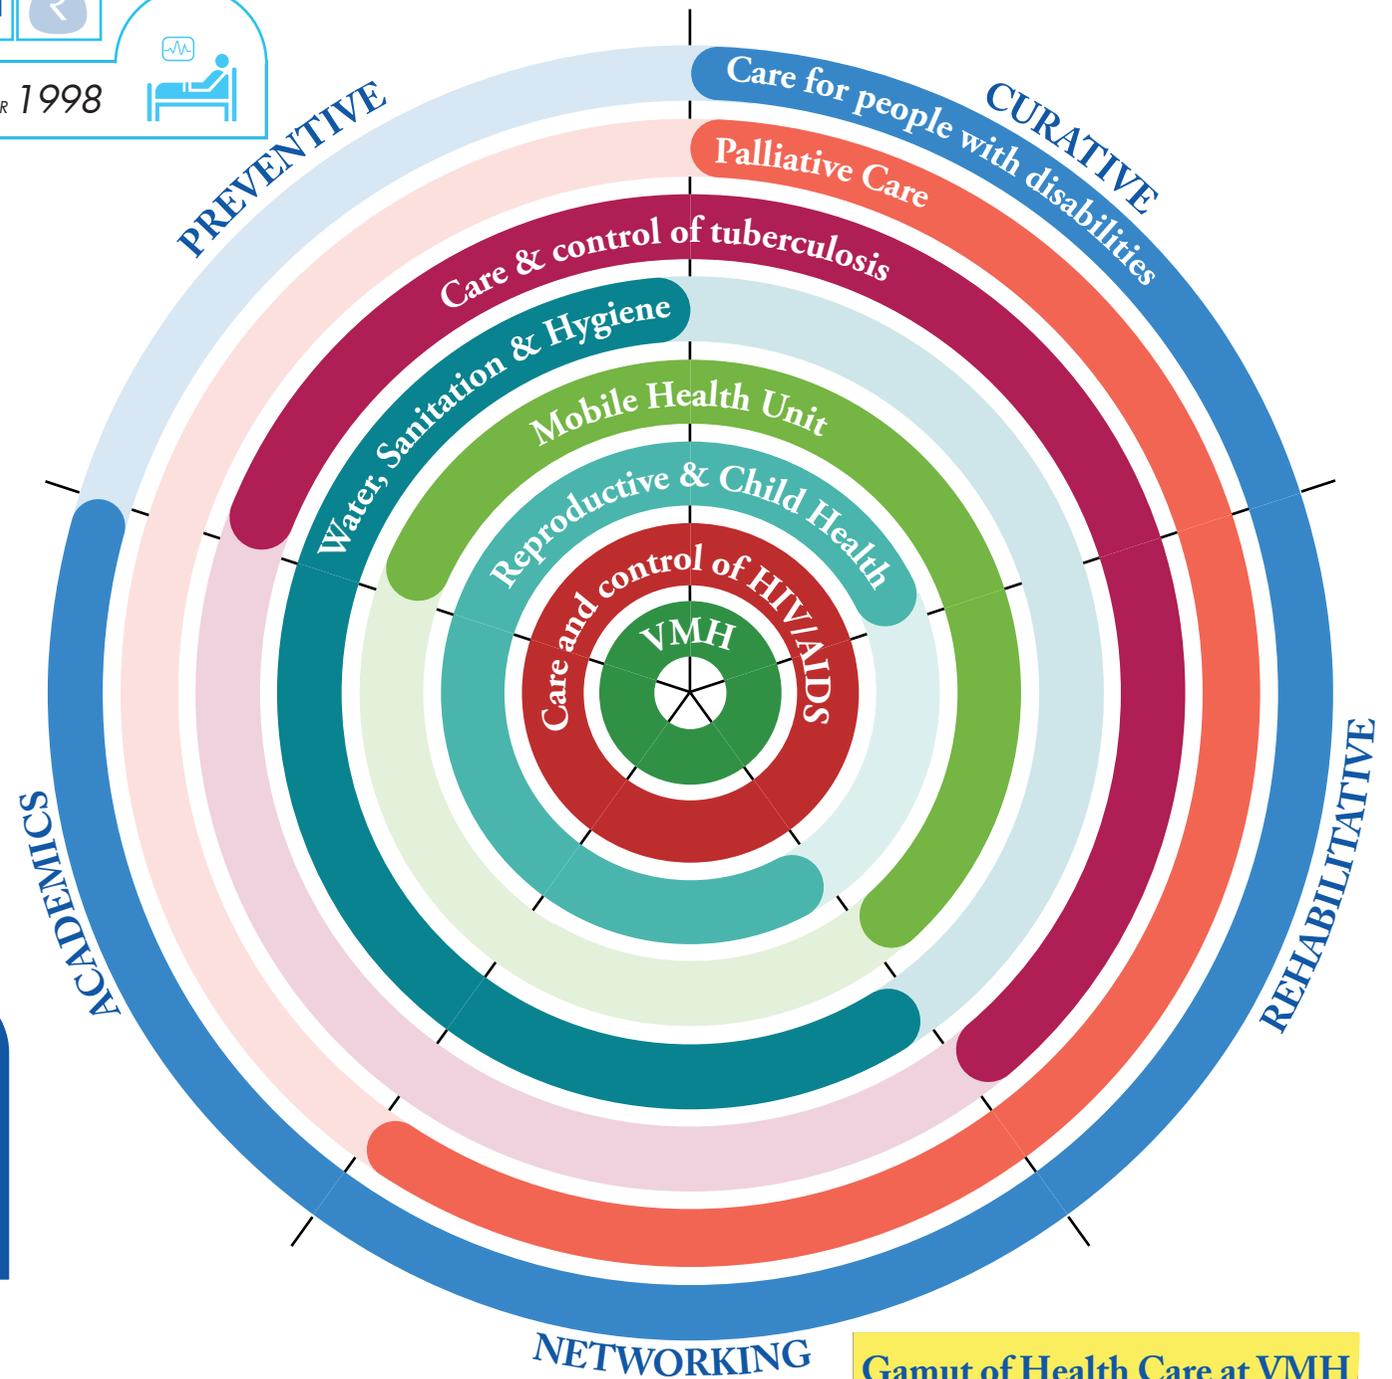

Vivekananda Memorial Hospital, Saragur

STARTED IN THE YEAR 1998

Vivekananda Memorial Hospital (VMH) offers 24x7 multi-specialty services to a population of 300 thousand from HD Kote taluk and neighbouring taluks of Hunsur, Nanjangud and Mysuru.

Hospital focuses on delivering care to the following sections of community: tribal population; women & children through its RCH services; people suffering from infectious illnesses like tuberculosis & AIDS; people with diabetes and other chronic health conditions; children with disability; and people and family affected by mental health illnesses, substance abuse mainly alcoholism.

39,805
patients seen during
the year with 3341
inpatients

Gamut of Health Care at VMH

Management of chronic illness like diabetes, hypertension, HIV-AIDS, mental illness, tuberculosis etc.

De-addiction programs for patients with chronic alcoholism

Care and support for differently abled children and mental health patients

20 critically ill patients were treated in CCU and 122 newborns were treated in NICU

12,622 counseling sessions were administered during the year. Counseling is an integral part of healthcare delivery. All patients and family are counseled based on their need on various issues like contraception, child nutrition & development, psychosocial issues, etc. Referrals and linkages to social entitlements are also provided through the Counseling Department

583 deliveries were conducted with no maternal death reported and 2 infant death during the year

7372 tribal patients benefited from the highly subsidized care at the hospital. Discounts to a tune of Rs. 50,99,393 were given during the year to both tribal & non-tribal patients through the poor patient fund

Linkages to social entitlements and insurance schemes (Janani Suraksha Yojane, Prasooti Araiike, Madilu kit, Yashaswini, SAS Purna Arogya)

A new SHG of female PLHIVs was established in H.D.Kote taluk in order to promote economic empowerment & secured livelihood

Adoption of lean health care management to reduce out patient (OP)turn around time, speed up the admission and discharge processes.

2362 Ayurveda panchkarma procedures, 215 Swarna Bindu Prashana and practice of Yoga as part of inpatient care was initiated.

**SURGERY
DETAILS**

**131 General Surgery
230 OBG
22 Ortho
5 ENT**

Recognized Designated Microscopy Center(DMC) and Sputum collection center. 2183 patients screened & 152 patients treated for Tuberculosis & free nutritional supplement was also provided for the tribal patients with Tuberculosis

Vivekananda Memorial Hospital
Saragur

ACADEMIC ACTIVITIES

Designing and developing paramedical courses relevant to rural health care like Fellowship in HIV Medicine, Diploma-General Nursing and Midwifery (DGNM), Patient Care Assistant (PCA), Practical Nursing etc.

To empower girls from rural areas to lead a self-reliant life, 8 girls were provided scholarships to complete their paramedical courses

- 100% results in DGNM
- 6 tribal students joined for the Nursing training
- 3 students certified and qualified in Ayurveda Panchakarma and basic Yoga at Trans-Disciplinary University
- 100% employment among all nurses trained at VMH - 3 nurses placed in Government sector

HEALTH EDUCATION

13 programs on health awareness were broadcast through the community radio in addition to the regular announcements about health camps and specialists' availability at the hospital

WORLD AIDS DAY WAS CELEBRATED ON 30th DECEMBER

330 PLHIV from Mysuru district participated in the event. The program, organized in collaboration with District Legal Services Authority and Department of Women & Child Welfare, addressed issues related to legal and social entitlements of PLHIVs.

Vivekananda Memorial
Hospital, Kenchanahalli

STARTED IN THE YEAR 1990

Vivekananda Memorial Hospital, Kenchanahalli has a target population of about 16,000 encompassing all age groups within a radius of 15 kilometres which also includes indigenous tribal population.

13,472 patients accessed the healthcare services during 2015-16 out of which 3542 were tribal patients

3 Special Yoga sessions for ANC/PNC with **43** participants and **4** Yoga sessions on Management of Diabetes were conducted with **75** participants

16 ayurvedic medicinal products are produced in-house & increase in the sale of products like Nirgundi Taila, Kashaya Powder etc.

Celebrated International Yoga Day 2015 in collaboration with local NGOs of H D Kote taluk & Self Help Groups. **80** participants participated in the event along with **10** students from University of Colorado and Aleghany College

Mentored 6 volunteers, **4** students from Cornell University and **2** students from Aleghany College who helped in developing materials related to Ayurveda

SVYM participated in the baseline survey of the Indo-Norway Project on “Sustainable integrated Mother and Child health care in rural India” in collaboration with Trans Disciplinary University (TDU) & Foundation for Revitalization of Local Health Tradition (FRLHT), Bengaluru. This study aimed at optimizing sustainable integrated primary health care for women and children based on available Indian Traditional Health Sciences in collaboration with western medicine. Three Community Based Organizations participated in the study amongst which SVYM’s report was appreciated.

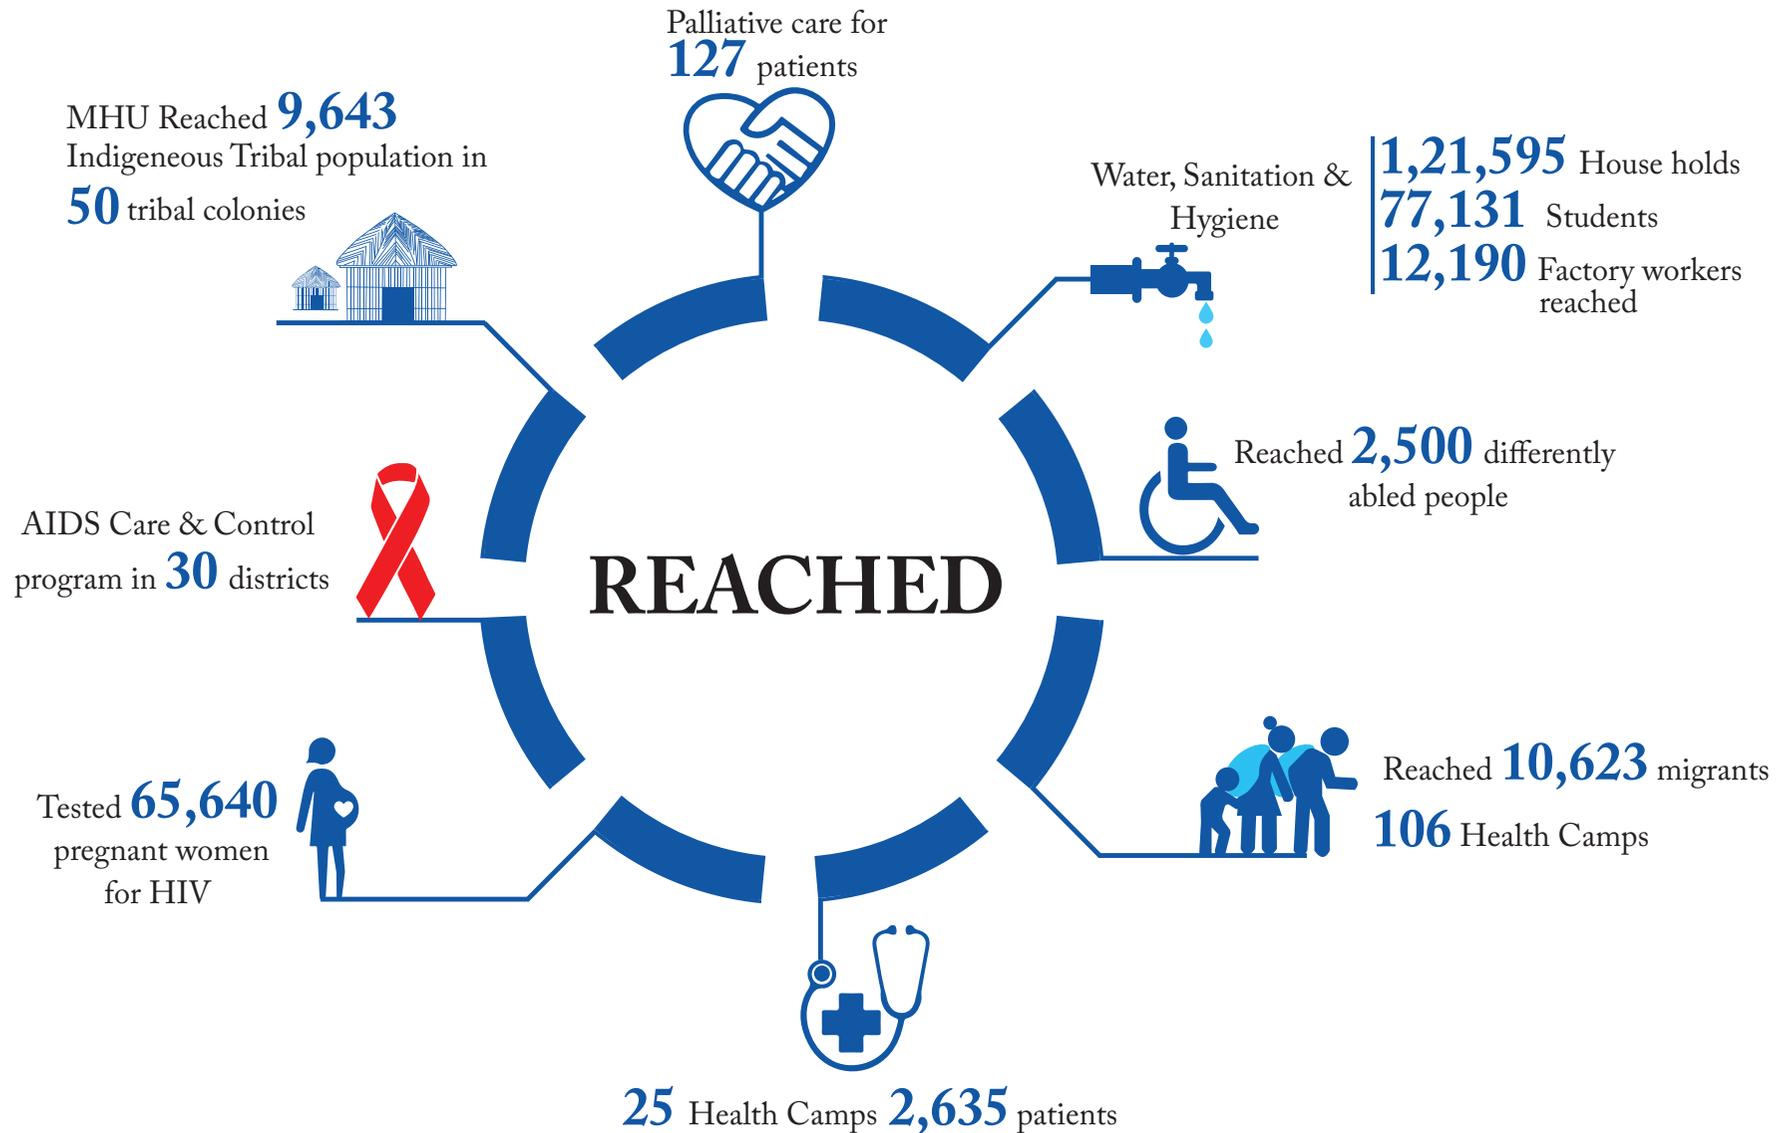

Vivekananda Memorial Hospital
Kenchanahalli

COMMUNITY BASED ACTIVITIES

As the name suggests, community based activities target at providing care and support to various communities. Reproductive & child health program; Mobile health Services; Rehab Initiative for people with disability; Water, Sanitation and Hygiene ; Palliative Care; and HIV care & Control Program

Mobile Health Unit (MHU)

INITIATED IN THE YEAR 1990

Mobile Health Unit (MHU) delivers primary health care at the doorstep of the communities residing in underserved geographic areas of the taluk.

Major thrust was given to awareness and continuum of care for pregnant and lactating mothers, children under five years of age, prevention and management of tuberculosis, linkage building for rehabilitation for people identified to have mental health problem.

Reduction in the incidence of common water borne infections in the community as a result of continuous health education through MHU services.

50 Haadis (Tribal Hamlets)

227 Days

2,234 Visits

9,643 Indigenous tribal patients treated

331 Patients referred to the hospital

Health camps

25 Field based thematic camps on Diabetes, Infertility, Paediatric, Blood donation, OBG, general surgery, Dental etc

2,635 Patients reached

795 Patients referred

Palliative Care

INITIATED IN THE YEAR 2011

Palliative Care program is working towards creating a collaborative platform for a patient-centric community-based integrated model that adopts a life-span approach to management of chronically ill.

A community driven fundraising event was conducted during the year. The resources mobilized helped the program to continue the care & support to 127 patients.

Palliative care aims to relieve the total burden of suffering at the house hold level by providing holistic care.

127

patients enrolled during 2015-16

32

patients linked to different facilities of Social Entitlements

372

doctor visits to patients home

876

patients home visits conducted

Reproductive and Child Health Program

INITIATED IN THE YEAR 1997

Reproductive and Child Health program-“Vatsalya Vahini” intends to improve the maternal and child health status of forest based tribes in H.D.Kote taluk through direct and facilitatory intervention. Tribal women in the reproductive age, pregnant mothers, children below 5 years and adolescents are the target group of this initiative.

9,000 tribal population in 57 Tribal colonies

- All pregnant mothers in the area are registered and provided timely care
- The leaders of the SHGs and the SHG Federation are being trained to become ambassadors of key Behaviour Change, especially for Antenatal care, Institutional Deliveries and Child care.
- Conducted 7 ANC camps at VMH Hospital and organized 5 trainings for ASHAs and Anganwadi workers

193 pregnant women registered

173 deliveries

89% institution deliveries

152 meetings for mothers, community and promoters

25 street plays

Rehab Initiative for People with Disability

INITIATED IN THE YEAR 2013

Rehab initiative for people with disability was initiated with children affected with Cerebral Palsy (CP) & differently abled people as the target community. The programme provides comprehensive rehabilitation services for this target community in H D Kote and the surrounding rural areas inclusive of institution-based rehabilitation facilities as well as awareness and behaviour change in the community, leading to improved quality of life and empowerment.

With a current reach of supporting 2500 differently abled people in H D Kote taluk, this initiative has shown steady growth each passing year as mentioned here:

- Established Rehab Gym at VMH Saragur and Kenchanahalli
- Undertaken survey to identify people with disability in HD Kote taluk
- Organized training for institution staff and appointed Physiotherapy assistant
- OPD services started at both Saragur and Kenchanahalli thrice a week
- Field based follow up cases registered under the project
- Organized residential camp for children with disability and their parents
- Trainings were undertaken to educate grass root workers such as ASHA, Anganwadi workers on early identification of disability and referral
- Mass awareness events celebrated on World disability day and CP day.

 **109** physiotherapy OPDs **224** community partner visits

 **61** field visits

 **61** community partners facilitated with aids and appliances through **3** camps

5 camps for staffs & grassroot workers

2 residential camps for Cerebral palsy affected children & their family

HIV Care and Control Program

INITIATED IN THE YEAR 1999

SVYM's approach to HIV/AIDS Care & Control programs are multi-focal, involving counseling, distribution of antiretroviral drugs, training of caregivers, prevention and advocacy in the community. VMH, Saragur is one of the very few private hospitals in India offering holistic treatment for HIV which includes counseling and testing services. The hospital is running a 10 bedded Community Care Center in VMH, Saragur.

2156 testing ICTC

195 PLHIV under regular follow-up at Link ART Plus

285 PLHIV were provided in-patient care

11.2% HIV-TB cross-referral, highest in the district

The United Nations Program on HIV and AIDS (UNAIDS) documented SVYM's approach to HIV/AIDS control as a best practice model

Svetana- Prevention of Parent to Child Transmission of HIV under Public Private Partnership (PPTCT-PPP).

65,640 Pregnant women tested for HIV

587 referral sites

224 active sites with access to SIMS and reporting NACO

62 institutional deliveries of People Living with HIV (PLHIV-Positive pregnant mothers)

36 exposed babies tested HIV negative

132

positive ANC's identified and referred through Referral sites & PPP

Covers **30** districts - SVYM is the largest and single partner to provide comprehensive care and treatment

Mobilizes the private health care providers and work towards - Elimination of Paediatric HIV

Viveka Health Project, Hassan

The Viveka Health Project, initiated in the year 2009 in collaboration with Hassan Institute of Medical Sciences, is a low-cost care centre to Control HIV/AIDS and providing Care and Support to People with HIV/AIDS.

The project trains medicos, interns, medical staffs, and paramedical students on aspects of how to treat and support HIV/AIDS infected people without any discrimination and to divert their minds and get them engaged productively in various activities. During the year, 900 participants including Doctors, Nurses, Medicos & D Group Staffs & Public attended and were benefitted from the programs.

TI-Migrant

The TI- Migrant project aims to reduce HIV prevalence among migrants in Mysuru district. The activities through this project ensures long term impact through behavior change and access to healthcare services, management of STI's and appropriate referrals & linkages.

Registered **10,623** new high risk migrants

Conducted **106** Health Camps in various sites

5,922 migrants attended and received services

Counseling service provided to **3,354** migrants

3 migrants were detected as HIV positive all the positive migrants linked to ART and with regular follow up

3,327 awareness sessions conducted

Prevention of Parent to Child Transmission of HIV under Public Private Partnership (PPTCT –PPP)

Ms. ASHA (Name changed), a HIV positive pregnant mother in the Kalaburgi district was registered under the PPCT-PPP program. During her due date, hospitals refused to admit her for delivery, the sole reason being she was HIV positive. Her health was in critical condition as water content in her womb was very less & she was suffering from premature Rupture of membrane. Both the mother and the baby's lives were under threat. She had lost all hopes . As a last effort she contacted Mr. Ramesh,

PO-Kalaburgi, PPTCT-PPP. After many attempts, Mr. Ramesh was able to get help from Mahadevappa Rampure Medical College (MRMC) hospital ,Kalaburgi. They were successful in saving the mother and the baby. The MMRC hospital though not a partner with PPTCT program agreed to attend to Ms. Asha . The PO of Kalaburgi has gained the trust of Ms. Asha and her family. The family follows the regular treatment regimen and the baby is now free from HIV infection.

Water, Sanitation and Hygiene Program

INITIATED IN THE YEAR 1991

WASH Project aimed to address the issues of Water, Sanitation & Hygiene environment in a Holistic way through multiple activities including Awareness generation, Behaviour Change Communication, Capacity Building and Advocacy since 1999.

Nairmalya Vahini and Sujala Vahini - Raichur

Nairmalya Vahini focuses on comprehensive water sanitation and hygiene education in communities and schools and to facilitate improvement of WASH related infrastructure by networking with governmental and non-governmental institutions in Raichur district. Sujala Vahini project focuses on promoting water quality testing and disease mitigation in Manvi and Devadurga taluks of Raichur district.

5,148 sources of water tested for its quality.

Safe drinking water unit and

hand wash facilities set in **61** schools with equal support from the community.

6,712 household Toilets constructed in **5** taluks

School health screening conducted in **21** schools reaching **4,174** students.

20,000 population reached in the community through street plays, capacity building workshop & awareness programs for teachers, Gram Panchyath members, ASHA's & Anganawadi workers, Community Based Organizations (CBO) & Self Help Group's (SHG).

Workers Need Project - Bengaluru

WASH Champions: **5,930** school children enrolled under WASH program are the ambassadors in the community

16,000 households from the community joined hands in solid waste segregation on a sustained basis

12,190 Factory workers reached through awareness programs in WASH

924 community partners reached in Hassan through WASH programs.

A descriptive study to assess the challenges relating to WASH practices among school children was published in the *International Journal of Multidisciplinary Research & Innovation*

EDUCATION

Viveka Tribal Center for Learning
Hosahalli

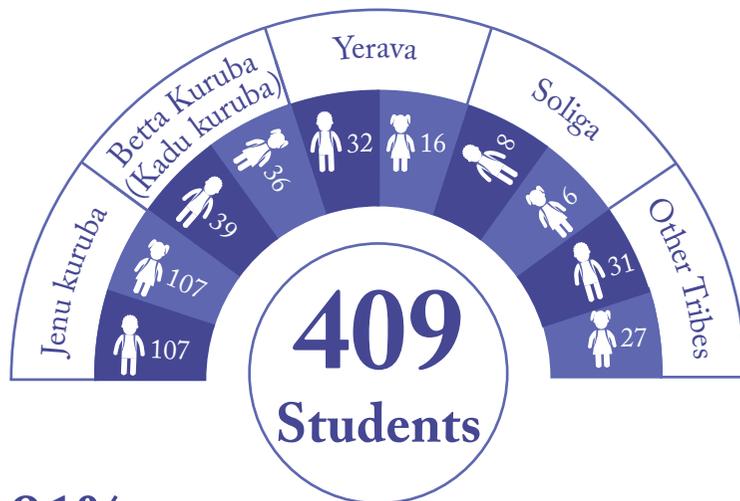

EDUCATION

In pursuit of its goal of a just and equitable society, SVYM has accorded prime importance to education. It provides and facilitates quality education through joyful, experiential and child-centric means to children between the age group of 6-15 years. The education system focuses on human values, literacy, numeracy and vocational training.

Viveka Tribal Center for Learning (VTCL) was started with an aim to provide access to quality education for the first generation learners and create agents of social change among the indigenous tribal community. VTCL is affiliated to the Karnataka Secondary Education Board.

91% annual average attendance recorded

Establishment of **3** day care centers which benefits 29 tribal children

2 students of Class 10 participated in Entrepreneurship Development Program - a national level business plan competition. Mallesha bagged the 2nd prize for his B-plan on lantana furniture

34 students participated in the state level Vanavasi sports, 6 of them also participated in the National level events in Jharkhand

70 students participated in the summer camp with sessions on soft skills, mental maths, Yoga, Karate & fine arts. This camp was conducted for the 24th consecutive year

25 students were provided linkages to higher education & professional courses.

27 alumni were trained at the Introduction to Basic Technology (IBT) centre and 21 of them were placed at industries in Mysuru

Viveka School of Excellence

STARTED IN THE YEAR 2002

Viveka School of Excellence (VSOE) was started to provide affordable quality education for the students in rural areas of H D Kote taluk. VSOE is affiliated to the Central Board of Secondary Education (CBSE)

516 students of H D Kote taluk

In-service training to teachers on subject areas, teaching methodologies and assessment strategies

Implemented Right to Education (RTE) from 2013

Emphasis on science education through programs like young explorer, science talks and exposure visits to science exhibitions

Road Safety Awareness Week observed with active participation of students, parents, local community and the Department of Road Transport

Teacher facilitators Mr Reddy, Dr.Ramkumar & Mr Sukesh presented a paper in national Conference at Regional Institute of Education (RIE) on 'Prospects, Practices and Trends in Adolescence Education

Vivekananda Teacher Training and Research Center

STARTED IN THE YEAR 2006

Vivekananda Teacher Training and Research Center (VTTRC) was established to create a community of competent and value based teachers to bring about a qualitative change in the present education system with a special focus on tribal education. The college offers a 2 year Diploma in Elementary Education (D.El.Ed).

28 girls enrolled to the course

15 students enrolled for the Budding Teacher program (a 8-month internship program to provide teaching experience and provide employability skills)

100% placements achieved through the Budding Teacher program

Teacher Learning Center - a platform for interaction and capacity building of in-service & pre-service teachers, was started

Tavina participated in the national level Vanavasi sports meet at Jharkhand and won the 4th place in 100m

Premavidya

INITIATED IN THE YEAR 2006

Premavidya envisions breaking the cycle of poverty for families by improving the quality of education at the school level through technology aided learning and encouraging students to pursue higher education.

6 Districts
229 schools
47,465 students
93,591 digital sessions held for students of 8th to 10th

19 schools across Bengaluru district now use android tablets with digital content

57 schools across 5 districts utilized the workbooks provided to all students of 10th std

15,988 students participated in the life skill sessions

12 hands-on sessions were conducted in schools through the mobile science lab visits

Science Education Program

INITIATED IN THE YEAR 2009

Science Education Program (Vijnana Vahini) aims at promoting scientific temperament among students and community at large in rural areas. The program includes Mobile Science labs, Science Exploratory Park, Science resource center and science promotion programs through the community radio.

The science park is the first in the state at the block level and is directly relevant to the school curriculum.

12,539 students participated in the hands-on sessions through the program

98 schools in H D Kote taluk were reached through the 2 mobile science labs

900+ questions on science were received from the students through the 98 question boxes in schools

380 teachers participated in the teacher training programs

24% of students in the taluk opted for science stream after completing 10th standard

Vijnana Vedike - a forum of science teachers of the taluk to share ideas, facilitate capacity building and conduct monthly science promotion programs was formed in March 2015. This year saw an increase in the membership base with many teachers actively taking the lead in organizing programs like Pi day, Vijnana Habba, Ganitha Habba and National Science Day. The weekly discussions among the teachers on curriculum aspects through WhatsApp has emerged as a successful engagement model to strengthen the conceptual understanding among teachers. The discussions have been documented and shared online.

1100 science enthusiasts receive Science Today - a photograph or video message showcasing the evolution of science, on a daily basis

Subscribe to Science Today +91-9900088957

186 episodes of Vijnana Vismaya - science in our daily life, were broadcast through the community radio station

Activities of Vijnana Vahini were showcased in the Indian Science Congress 2016 at the Department of Science & Technology pavilion and was awarded the Most Interactive Pavilion at the Pride of India Expo.

VIDYODHAYA

INITIATED IN THE YEAR 2015

Vidyodhaya is a program to support the elementary education of the girls from marginalised community studying in the 5 Kasturba Gandhi Balika Vidyalayas in Mysuru district. The program aims to empower the girl children to lead a self-reliant life with dignity and honour through academic inputs, development of life skills (including leadership and financial literacy) and promotion of awareness of health and hygiene.

450 girls from difficult socio-economic backgrounds reached

All students participated in exposure visits to Science Exploratory Park and Kabini dam

4 health camps conducted along with awareness sessions on sanitation and personal hygiene

Viveka Scholar Program

INITIATED IN THE YEAR 2006

Viveka Scholar Program identifies nurtures and empowers meritorious students passed out of government high schools or those studying in government PU Colleges to excel in their board and competitive exams.

404 students are directly benefitted from this program across the districts of Mysuru, Bengaluru, Hassan, Tumkur & Yadgir.

42% of the VSP students have enrolled in professional courses & **35%** of them opted for basic science

VSP students secured **93%** result in PUC examination during 2015

714 sessions were conducted using Optimized learning methodology using VSAT and streamed LIVE interactive session at all 5 centres

8 students accessed online lecturing from BASE coaching academy

Mentoring & Career Guidance provided to 200 students

98 students opted for competitive exams like IIT/JEE, AIPMT & ICAR AIEEA and 1 of the student from Hassan cleared the exam and got enrolled in B. Planning at NIT, Bhopal

Two students have been awarded 5th & 7th place amongst top 10 competitors of the Techkriti Open School Championship conducted by IIT-Kanpur

7 SEEP

SEEP (Socio Economic Empowerment Program)

INITIATED IN THE YEAR 1992

SEEP (earlier known as Community Development Services) supports tribal people in improving their health status by addressing social and economic determinants

113 active SHGs operating with **1430** tribal women

3709 SHG visits and meetings undertaken during the year.

45 capacity building sessions on maintenance of books of accounts , savings, loan repayment, livelihood development etc.

Medical care, nutritional supplements and regular follow-up of **93** TB affected tribal patients

Supported **3** community members in setting up petty shop. Average transaction of Rs. 600 per day.

Reached out to **18000** indigenous tribal population

160 tribal women received training on various vocations like bakery products making, file making , tailoring , & apiculture

48 Community meetings were conducted to discuss and act upon the socially relevant issues faced by community

Facilitated an awareness program on legal issues conducted by the District Sessions Court. More than 250 tribal "women" participated in the program

8 land owning tribal farmers received seed capital and technical support to take up agricultural activities. Each of them earned more than Rs. 1 lakh during the year

34 tribals, including **24** women, were elected in the recent Gram Panchayath elections. A workshop was conducted, in collaboration with GRAAM, to give these members an orientation on the functioning of the Gram Panchayath

Distributed sewing machine to 16 members and a file making unit has been set in MG Halli Haadi

Provided apiculture training for **120** members

Facilitated and secured social entitlements

viz **129** Sandhya Suraksha Yojana, Widow Pension, Physically Handicap pension, **545** Ration card, **77** Aadhar card, **253** caste certificate.

Janadhvani 90.8 MHz

INITIATED IN THE YEAR 2012

Janadhvani, the community radio station aims to provide the community with key information and knowledge in diverse aspects of everyday life, and thereby improve the quality of life of people.

2 lakh population across **200** villages of H.D.Kote taluk

58% of audience are youth.

12 hrs of broadcasting per day

86% of the participants from the community including Govt. officials

Community Monitoring of Pradhan Mantri Gram Sadak Yojana

INITIATED IN THE YEAR 2015

Pradhan Mantri Gram Sadak Yojana consultancy project aims at awareness generation and promoting the participation of citizens in monitoring the quality of roads constructed under the PMGSY.

2 districts (Chikkamagaluru and Vijayapura)

6 Master trainers

20 roads

20 Gram Panchayath

60 were trained to monitor the quality of roads, conduct survey and report their findings to the Gram Sabha.

After the submission of baseline survey reports of 20 roads, there was a perceivable improvement in the quality of the road construction.

It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who comes short again and again, because there is no effort without error and shortcoming; but who does actually strive to do the deeds; who knows great enthusiasms, the great devotions; who spends himself in a worthy cause; who at the best knows in the end the triumph of high achievement, and who at the worst, if he fails, at least fails while daring greatly, so that his place shall never be with those cold and timid souls who neither know victory nor defeat.

Theodore Roosevelt
26th President of the United States
From "Speeches-The Man in the Arena"

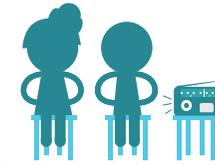

SHGs meeting

Nammuru: **64** Episodes
52 Government Officers
from various departments

Nammuru is a weekly program focusing on addressing the developmental issues of HD Kote taluk through live phone-in programs with Government officials and community representatives. Issues discussed and resolved through the program include supply of safe drinking water, quality of road construction, shutting down of illegal arrack shops, provision of bus facilities to remote villages and deputation of teachers & doctors to schools and PHCs in need.

Radio Mathematics

"Lekkada Katte", a 182 episode radio serial was an effort to help children learn mathematics of the higher primary school curriculum. Presented in a family drama format, every episode highlighted the relevance of concepts in our everyday life.

Over 300 students from the nearby schools participated in the program.

Students felt learning maths was made joyful and easier through the program. Performance of the students in maths was tracked in few schools and an average increase of 26% was observed.

Narrow-casting was also done in 14 schools and the programs shared through DVDs, pen drives etc. with over 20 other schools.

SUCCESS STORY

After evacuation of tribals from Bandipur forest our life was disturbed as we didn't have any source to meet basic needs and there was no means of income to run the family. Though we were rehabilitated and were given land we couldn't afford to do agriculture. We used to live by making & selling cane baskets but were prohibited to enter the forest to fetch bamboo. So we had to go to Kodagu or Kerala to work as daily wage laborers to earn our bread. After I joined SHG of SVYM my life has gradually improved. To strengthen the SHG members, the organization has taken us on visits to see the achievements of women from various other SHG and to see how they have become self-reliant through various income generating activities. We were trained in tailoring and bakery products making. Under the guidance and support from SVYM, I have started making products out of Ragi (Finger Millet). For the past one year I have been making several Ragi products like Ragi malt powder, snacks, Papad etc and this has stabilized the financial condition of my family. Now we don't have to go to different places looking for work as daily wage labourers, & I am able to afford my son's education through my earnings. We have been trained to prepare the products by maintaining cleanliness & Hygiene. Initially we were worried on how to sell the products but SVYM has opened a sales outlet in Handpost, H D Kote taluk. We take all our products there and when products get sold we get cheques from the outlet. This year I have earned Rs. 60,000 profit & wish to make more profit going forward.

Masters in Development Management

TRAINING & RESEARCH

SVYM has developed a treasure house of knowledge, experience and human resources over the years, and government and non-government agencies as well as corporates have always sought to benefit from this in their own ways.

This sector was conceptualized to consolidate the learnings of SVYM's work in the community and share them with like-minded organizations.

It aims to serve India by building the potential of individuals & institutions for the development sector (Govt, NGOs and Corporates) and synergize their efforts for better, collective gain. It also strives to develop innovative programmatic models for the development sector and influence public policy.

Vivekananda Institute for Leadership Development (V-LEAD)

STARTED IN THE YEAR 2002

V-LEAD is a premier Training and Research centre dedicated to the mission of building managerial and leadership capabilities for sustainable development. It offers a variety of training programmes to government institutions, nonprofit organizations, corporates and youth.

VLEAD has initiated a 2 yrs post graduate program, Masters in Development Management (MDM). This specialized course for the development sector is a blend of social work, management and field work. MDM is recognized by University of Mysore and is first of its kind in India.

We realized that there is so much more to do beyond working at MNCs.

Ms Shwetha
2nd year MDM
Student Partner

"The purpose of life is not to be happy. It is to be useful, to be honorable, to be compassionate, to have it make some difference that you have lived and lived well".

- Ralph Waldo Emerson

“Your work in Swami Vivekananda Youth Movement exemplifies the best of the US- India partnership and our people- to people ties. Thank you again for the opportunity to visit your organization, and for all that you do to empower communities.”

**- Richard R. Verma,
Ambassador of US to India**
(In his letter written to Dr. R Balasubramaniam
post his visit to SVYM in April 2015)

**Visit of the Ambassador of the
USA to India to SVYM Mysuru.**

19 students did rural apprenticeship program to learn and understand the existing challenges in rural development

2 students worked in the Accounts & Library departments under the "Earn while Learn" program

12 students from Northern Iowa & Wartburg College participated in a cultural exchange program with MDM students

2 indigenous tribal students of Jharkhand were sponsored for MDM course from TATA Steel and 5 students of Karnataka have been provided scholarship by Canara Bank

24 students participated in the GEN-NEXT program imparting key skills required for the development sector.

Training - Initiated in the year 2005

V-LEAD training programs reached-

1,186 Government officials

- Leadership Development Programme
- Understanding NGO & Development
- Interpersonal media campaign

219 Corporate employees

- Stress Management and Conflict resolution
- Social Leadership and Practice of ethical leadership
- Leading change

348 NGO Professionals

- Introduction to NGO's
- Yoga Teachers Training
- School Sanitation

437 Youth

- Gen-Next
- Vikasana- A personality development program

I had only heard about people who give everything to a cause they believe in & so they achieve greatness. Here, it is so interesting to see so many people at very small levels who are doing it and their work probably might not be recognized but still they are serving so selflessly. This made me look within myself to what I am doing.

Kriti Srivastav
Trainee partner
Institute of Secretariat Training and Management (ISTM)

The introductory program on NGO attachment for ISTM New Delhi was delivered with quality and purpose which was instrumental in getting as many as 12 additional programs during the year.

State Training and Resource Centre - Initiated in the year 2014

Total Reach **222**

10 batches of training program were conducted on HIV prevention & management

Hand holding for **23** TI's who had undergone training under STRC

5 Research projects undertaken

I am Pramila J P and I am a native of Kodagu. I studied in Viveka Tribal Center for Learning (VTCL) from 3rd std to 10th std during which I underwent IBT training in Electronics & Mechanics which gained my interest. I decided to take up specialized course in any of these subjects and make a career in this. After completion of 10th std I got an opportunity from my school for getting admission to Nettur Technical Training Foundation (NTTF) in Bengaluru. I qualified the preliminary tests and joined the course. I aspire to uplift my family by building a better career as I have seen my family suffer from poverty. I am grateful for the support & contribution of my school & SVYM for helping me to achieve my dream. On becoming self-reliant I wish to support our Jenukuruba community and SVYM in every possible way.

I was working as a labourer in one of the villages near Kenchanahalli and earning 300 to 500 Rs annually. When Swami Vivekananda Youth Movement was initiated in Kenchanahalli I joined there as the first employee of SVYM. Dr. R Balasubramaniam, Dr. Seetharam, Dr. Vivek- all of them liked my behaviour and my work & they never treated me as just an employee. Organization has held my hand throughout and I have seen lots of improvement in my life. The organization supported me to construct a new house which I couldn't have done by myself because I was living in a small hut.

I have seen the organization spreading from Brahmagiri to Kenchanahalli then to Hosahalli and Saragur. I have also seen the challenges it has faced. Initially in Saragur there was no water even to drink but they didn't give up and they have turned all obstacles into the stepping stones and took the organization to next level. Without their efforts and sacrifices we never would have got such facilities like hospital and schools in the rural area like Saragur. I had never imagined that organization would grow to such a level despite all the challenges that existed during those days. This organization has given my life a new meaning through its guidance. I feel very proud being a part of such an organization and I wish the organization grows successfully & the collective efforts takes it to greater height serving more lives.

BASAVA

1st employee of SVYM

Employee Partner

I have learned a vast number of things. The concept of human and social capital is now very important for me and I firmly believe that building people's capabilities and providing opportunities is a crucial way to help those in need. I learned more on microfinance, which was initially what interested me from this experience. The potential of SHGs is enormous. A small group can have a large impact on a person's life and not just on the financial aspect but also on an emotional level.

When I was looking into the program I was wondering which types of courses I would be able to take. I wanted to learn more about Microfinance and when I saw it as an option I felt I could take more advantage of the program. Also, not only in terms of academics, I wanted the cultural exposure and experience I could gain from coming to a different country with different practices and beliefs.

Anna Marella Lagrotta
Externship Semester program, Cornell University
International Student partner

5 years ago one of my friends introduced us to SVYM and took me and my wife to Saragur. We were overwhelmed by seeing the work they have done in the rural area. It shows us all the hard work and the efforts put in by Dr. R Balasubramaniam and his team members over the years. It demonstrates the sacrifices they have made in order to provide better facilities for the deprived community. Their work has inspired me and my wife to support them in their work and the regular report sent by Mr. Ravishankar about the progress of the VSP students is appreciable as it is outstanding when compared to other institutes. We are happy to support such cause of SVYM and continue to support Dr. R Balasubramaniam and his team as they all are doing a wonderful job out there.

Mr. Ashok Nanjappa
Donor Partner

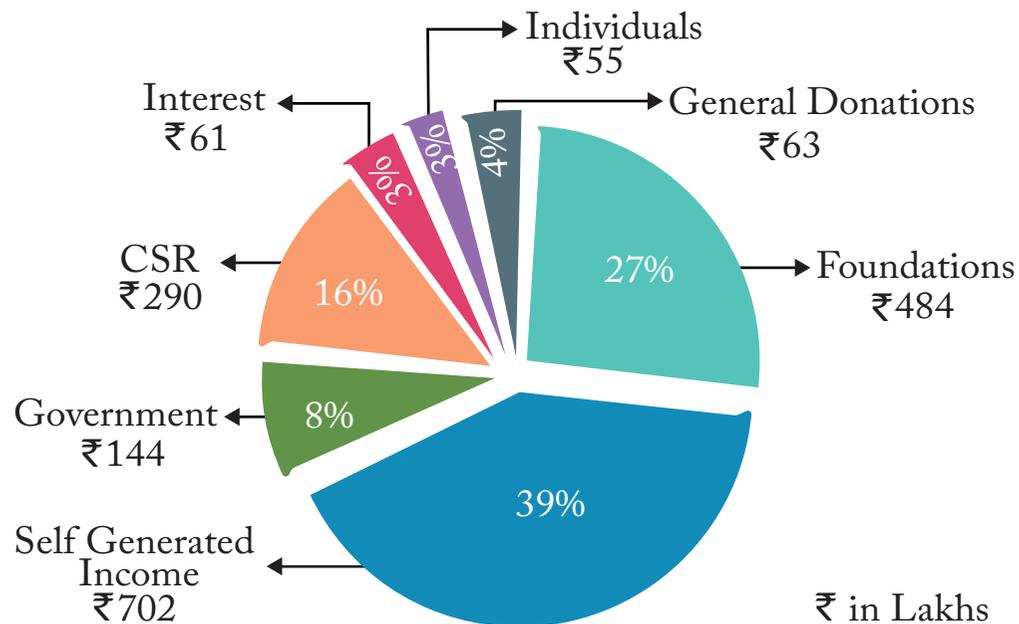

H D Kote was one of the educationally backward taluks. To facilitate science education in such a place is a challenge and SVYM is striving hard to improve the science temperament of rural children through its science initiative called Vijnana Vahini. 7 years back Mobile Science Van was introduced with a tagline Nodi Thili- Maadi Kali- where students observed the demo & experiments and they learnt it by practicing. Teachers meeting, Science oriented discussions have boosted the knowledge & confidence of teachers. Implementation of Premavidya program by providing learning aids for rural students and school facilitators who follow up at-risk students has improved the performance of SSLC students.

The rural students had to go to Bengaluru to see Science laboratory/museums but the Science exploratory park in Saragur has fulfilled that need. Understanding and learning Science concepts for rural students have been made easier. Vijnana Vedike- Science forum is also very innovative concept operating successfully spreading knowledge. The constant efforts of Mr. Preveen and Mr. Kollegala Sharma and their science innovations like Radio mathematics, E-newsletter, Science Quiz, Pi-day, Science exhibitions, Science Experts talk has created a support system for rural children.

About the logo

The emblem with its basic tenet of 'Serving God in man' as propounded by Swami Vivekananda, symbolizes our movement in letter and spirit. Beginning with 'physical service' (food and health) to the poor and the needy, as depicted by the ripened grains and Staff of Hermes, we move on to the higher planes of 'intellectual service' (education and awareness) as represented by the open book. This ambrosial offering to human kind is indicated by 'Amritha Kalasha' for bringing sunshine (hope). By dedicating ourselves to this noble cause, we ultimately aim at spiritual development in our own lives, as reflected by the thousand-petal lotus.
