Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking a subscription decision, investors must rely on their examination of the issue including the risks involved in it.

Specific attention of investors is invited to the chapters “Risk Factors” and on page 14, respectively of this Final Fund-Raising Document. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the ZCZP Instruments or investor’s decision to subscribe for such securities.

FORWARD LOOKING STATEMENTS

Certain statements contained in this Final Fund-Raising Document that are not statements of historical fact constitute “forward-looking statements”. Investors can generally identify forward-looking statements by terminology such as “aim”, “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “objective”, “plan”, “potential”, “project”, “pursue”, “shall”, “seek”, “should”, “will”, “would”, or other words or phrases of similar import. Similarly, statements that describe our Society’s strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, result of operations, social impacts, number of beneficiaries and prospects may be akin to forward-looking statements. These forward-looking statements include statements as to matters discussed in this Final Fund-Raising Document that are not historical facts. However, these are not the exclusive means of identifying forward looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Important factors that could cause actual results, including our financial conditions and results of operations to differ from our expectations include, but are not limited to, the following:

- Reduction or discontinuation in the donations or grants received by us;
- Changes in applicable law governing Corporate Social Responsibility policies;
- Failure to retain and attract Community Volunteers; and
- Impact of the COVID-19 pandemic or the outbreak of any new pandemic on our business and operations. For further discussion of factors that could cause our actual results to differ, see “Risk Factors” on page 14 of this Final Fund-Raising Document.

Forward-looking statements reflect the current views of our Society as of the date of this Final Fund-Raising Document and are not a guarantee of future performance. These statements are based on the management’s beliefs, assumptions, current plans, estimates and expectations, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward looking statements based on these assumptions could be incorrect.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Neither our Society, our Governing Body, our Founder, our Key Managerial Personnel, the Advisor to the Issue, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

F. Summary of Outstanding Litigation

Except as stated in the chapter ‘Outstanding Litigation’, none of our Society, Governing Body and Founder are party to any pending litigation whose outcome could have a material adverse effect on the financial position of our Society, which may affect the issue or the investor’s decision to invest / continue to invest in the Issue.

For further details, please refer chapter “Outstanding Litigation” beginning on page 226 of this Final Fund Raising Document.

G. Risk Factors

The following are the risks envisaged by the management of our Society which relate to our Society, the ZCZP Instruments.

1. Failing to effectively manage multiple initiatives concurrently can pose a significant risk of Operational Overload and Inefficiencies.
2. We are exposed to various operational risks including the risk of fraud and other misconduct by employees or outsiders.
3. Failure to retain and attract experienced executives might have an adverse impact on our operations.

For details relating to risk factors, please refer section titled “Risk Factors” beginning on page 14 of this Final Fund Raising Document.

H. Exemption from Complying with Any Provisions of Securities Laws, If Any, Granted by SEBI

Our Society has not applied or received any exemption from complying with any provisions of securities laws by SEBI.

SECTION II – RISK FACTORS

The following are the risks envisaged by the management of our Society which relate to our Society and the ZCZP Instruments. Potential investors should carefully consider all the risk factors stated in this Final Fund-raising document in relation to the ZCZP Instruments for evaluating our Society and the ZCZP Instruments before making any investment decision. Our Society believes that the factors described below represent the principal risks inherent in investing in the ZCZP Instruments but such risks are not exhaustive. Potential investors should also read the detailed information set out elsewhere in this Final Fund-raising document and reach their own views prior to making any investment decision.

If any one of the following stated risks actually occurs, our business, financial conditions and results of operations could suffer. These risks and uncertainties are not the only issues that our Society faces. Additional risks and uncertainties not presently known to our Society or that our Society currently believes to be immaterial may also have a material adverse effect on its financial condition or business. Unless specified or quantified in the relevant risk factors, our society is not in a position to quantify the financial or other implications of any risk mentioned herein below.

Further, our society has also mentioned in this chapter, that if any of the following stated risks actually occurs, how the Society would manage to mitigate such risks.

INTERNAL RISK FACTORS

1. Failing to effectively manage multiple initiatives concurrently can pose a significant risk of Operational Overload and Inefficiencies

Potential Risk: We are engaged in operations, including initiatives in the Education Sector, Health Sector, and Socio-Economic Empowerment Sector, for the welfare of communities we cater. This can lead to operational overload and inefficiencies or we can struggle to manage multiple initiatives concurrently. Further this can result in resource strain, project delays, misaligned priorities, and a decline in the overall quality of project outcomes. The complexity of handling diverse projects simultaneously may lead to challenges in coordination, communication, and strategic alignment.

Mitigation Plan: We have implemented and adopted a structured approach to enhance organizational capacity and streamline processes to effectively manage our various operations. For convenience and efficiency of the management, the Organization activities are divided into Organization Management Area (OMA) which reflect the internal functions like Finance and Accounts, HR, Support Service, Relationship Management, Monitoring and Documentation function on one side and Program Focus Area (PFA) namely Health, Education, Socio Economic Empowerment Program and Training & Research which reflect the external functions of the Organization.

2. Failure to retain and attract experienced executives might have an adverse impact on our operations.

Potential Risk: Our dedication to rural and tribal areas, central to our mission, may pose challenges in recruiting experienced executives capable of effectively leading our programs. Further seasoned executives could hesitate due to unique challenges like limited infrastructure, cultural disparities, and the need for tailored solutions for these communities.

Mitigation Plan: In SVYM, as in other sectors, Human Resource Development (HRD) begins with being able to attract and retain staff of the right caliber. In part this means being able to offer salaries and conditions of service that are as adequate and secure as possible. SVYM also practices a 'Gender - just' policy & diversity & inclusion in recruitment and career advancement. We in our organisation provide better human resource development and training of managers, administrators, project staff, Governing body members, Project community partners, members and volunteers within the organisation. SVYM works as a platform for each individual to exhibit their desire to serve mankind through various selfless activities. This culture helps to attract & retain talent in the Society to serve the community. We also are compliant with the prevalent labour laws and are committed to statutory requirements like Provident fund and Gratuity for our employees. SVYM always tries to recruit as many localities as possible including tribal communities in our programs providing necessary training. This helps to retain human resources.

3. We require a number of approvals, licenses, registration and permits for our ongoing initiatives and failure to obtain or renew them in a timely manner may adversely affect our operations. In some cases, we may be operating without all the required permissions, risking civil and criminal sanctions.

Potential Risk: We require several statutory and regulatory permits, licenses and approvals in the ordinary course of our operations, some of which our society has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all.

Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension, delay in issuance or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on our operations. For further details, please see chapters titled “Key Industry Regulations” and “Government and Other Approvals” at pages 80 and 228 respectively of this Final Fund Raising Document.

Mitigation Plan: We have dedicated teams responsible for monitoring and ensuring the timely renewal of all necessary approvals, licenses, registrations, and permits. Regular internal audits are conducted to identify any gaps or potential issues in compliance. Further we maintain open communication channels with relevant regulatory authorities to stay informed about changes in requirements and promptly address any issues that may arise.

4. We are exposed to various operational risks including the risk of fraud and other misconduct by employees or outsiders.

Potential Risk: We are exposed to various operational risks which include the risk of fraud or misconduct by our employees or even an outsider, unauthorized transactions by employees or third parties, misreporting and non-compliance of various statutory and legal requirements and operational errors. It may not be always possible to deter employees from the misconduct or the precautions we take to detect and prevent these activities may not be effective in all cases. Any such instances of employee misconduct or fraud, the improper use or disclosure of confidential information, could result in regulatory and legal proceedings and may harm our reputation and also our operations.

Mitigation Plan: We being not for profit organisation developing human and social capital. We also strongly practice values like ‘Satya, Ahimsa, Seva & Tyaga’ which has become the culture of the Organisation. Every employee has to undergo orientation about the social sector and living values. This is helping individuals to be intact with strong values including integration. We are inevitably affected by trends in other sectors in society, by labour market forces and by prevailing social attitudes, which increasingly lean towards individualism. We however, endeavour to keep in mind the values and non-self-serving aims which drive us and express them in all aspects of our work. These values are a needed counter-force, especially in societies where self-serving individualism becomes extreme.

5. There might be decline in donations in future due to presence of multiple NPOs with similar interests.

Potential Risks: In the landscape of NPOs, there exists the possibility of overlapping projects and causes. It's plausible that various NPOs could be working on similar initiatives, attracting the attention of donors and contributors. Consequently, these supporters might choose to allocate their funds to multiple organizations, diversifying their contributions to maximize impact. However, this dispersion of financial support can pose a challenge for us, potentially affecting the grants we receive.

Mitigation Plan: Our major priorities and practices are -

- **Better networking and alliance** – building amongst other federations and like-minded Development Organizations. Adopting best practices and norms set/ suggested for Development Organizations
- **Better information** provision by and about the Organization
- **Increasing trend of CSR grants & individual philanthropy** - CSR grants and individual philanthropy increasing by year on year which is helping NPOs to expand/sustain activities

SVYM believes in collaborating and working in partnership with the communities that it serves; SVYM works with diverse donor segments like Government agencies (Local, State & Central), socially responsible corporates, Trusts & Foundations, World bodies, Individuals & other Development Organizations (NGOs & CSOs) which supports the programs operations. This would enable us to engage with all the donor segments to support holistic education and other services for the deserving community. Our strategy of adopting fundraising target from different donor segments will mitigate the risk of funds being limited to one source.

- a. SVYM's focus on four major sectors - Health, Education, Socio Economic Empowerment Program, and Training & Research - demonstrates a comprehensive approach to addressing societal needs. This strategy aligns well with the Sustainable Development Goals (SDGs) and thematic areas of Corporate Social Responsibility (CSR) policies and Social Stock Exchange. By working across these diverse sectors, SVYM is able to offer a range of options to donors, allowing them to contribute to various thematic areas of their interest.

The umbrella approach, where all services are provided under one roof, not only streamlines the donor experience but also facilitates better monitoring of the impact created. This integrated approach enhances the organization's capacity to create a meaningful and holistic impact on society. By covering a wide array of thematic areas, SVYM is positioned to meet the varied needs and preferences of its donors, making it a versatile and effective partner in driving positive change.

- b. It's impressive to note that SVYM has experienced a consistent increase in grant size over the last 39 years of service. The fact that most donors are repeated donors is a testament to the organization's sustained impact in society. Long-term partnerships are often built on the foundation of positive change, and it's evident that SVYM's implementation strategies

are relevant & effective which is attracting more donor partners. The year-on-year increase in grants is a clear indicator of the trust and confidence donors have in the organization's ability to create meaningful and lasting impact & utilisation of grant as per the guidelines.

- c. SVYM is prompt in submitting reports & utilisation certificates along with all statutory compliances. All grants are utilizing as per agreed terms which is also positive sign to get more donors.
- d. Donors will be interested if programs are designed to meet community need and which is scientifically designed in alignment with community need & academic rigour. We being one of the largest NGOs of India implementing project directly along with small amount of sub granting. Direct implementation helped us to build great connect with community & other academic partners which is bringing academic rigour too.
- e. Even though started with few donors today we are working with more than 100 donors excluding individual donors, this indicates consistency in growth.

6. *There could be unintended consequences of our operations under our initiatives.*

Potential Risk: Our initiative, while well-intentioned, are not immune to unintended consequences that can disrupt our operations. One of these consequences could be inadequate stakeholder engagement, insufficient planning and analysis. Without robust involvement of key stakeholders and thorough planning, we may encounter disruptions in our operations, hindering our ability to achieve intended outcomes and creating unintended consequences.

Furthermore, the unavailability of essential resources, including materials, equipment, or skilled personnel, can impede our ability to carry out our programs effectively. This scarcity of resources might result from external factors or mismanagement within the organization, and it can hinder our ability to meet project milestones and fulfill our mission.

Financial stability is another critical factor, and the unavailability or shortage of funds can significantly impact our ability to operate smoothly. If we do not have the necessary financial resources to cover operational costs, pay staff, or invest in program development, our initiatives could stall or face cutbacks, limiting their impact and reach. Disputes among employees can create internal tensions that spill over into the organization's activities. Such conflicts, whether they pertain to differences in opinion, work allocation, or interpersonal issues, can lead to a halt in manufacturing or program activities. Employee discord can negatively affect morale and productivity, impacting our program's overall effectiveness.

Mitigation Plan: For Financial stability we harmonize resource support from Government, Donors from Corporates & Traditional Trusts & Foundations and the Community. We also encourage community contribution in kind. The resource mobilization efforts through relationship management are broad based and include community, Government, Corporate, Individuals, Traditional Trusts & Foundations, National and International Donor Agencies. This is to avoid Mission creep due to donor pressures and to reduce the risk of dependency on anyone or group of donors. Local community involvement in all our activities and collaboration with the Government has helped to avoid formation of any dispute among employees. All our employees are spread across various locations and more than 60% employees are field based which avoids frequent physical meetings of employees. Since all programs are designed in collaboration with the Government & local community for public good, employees commitment & involvement is very high.

7. *Our initiatives are especially focused in rural & tribal areas, difficulties such as culture barriers, language barriers and Geographical barriers might have an adverse impact on our operations.*

Risk Factors: We generally have projects in rural and tribal areas, our failure to understand and respect tribal traditions, customs, and beliefs can lead to resistance or rejection of our projects. Further failure to establish a deep understanding and appreciation for tribal cultures may erode the trust that is fundamental for successful community engagement.

Mitigation Plan: For cultural disparities, SVYM focuses on understanding the gaps which are culturally appropriate for designing the solutions which are relevant to the respective community. Enabling the local community to organize undertake and monitor programs relevant to them and we largely employ local community. About 80% of our staff comes from the local communities. Localization of human resource has increased local stake holding, provides career opportunity for local people, has aided in local socio - economic empowerment and has been a tool for transparency and accountability.

8. *Our culture and values have been critical to our success and if we cannot maintain this culture and our values as we grow, our operations and reputation could be adversely affected.*

Potential Risk: Our culture and values have played a pivotal role in our journey to success. They underpin our identity, guide our actions, and shape our interactions within the organization and with the communities we serve. However, sustaining these values can present a set of challenges, which, if not addressed effectively, could undermine our progress. First and foremost, attracting and retaining employees who align with and actively contribute to our culture and values is vital. If we fail to do so, it may lead to a cultural misalignment and hinder our ability to maintain the cohesive and values-driven environment that has fueled our achievements.

Furthermore, external factors have the potential to divert us from our core priorities and vision. Whether it's unforeseen economic shifts, changing political climates, or other external pressures, these distractions could cause us to deviate from our mission and values. Additionally, integrating new personnel into our organization, while necessary for growth, can also pose a challenge. Ensuring that these new team members understand, embrace, and embody our culture and values can be a complex and time-consuming process.

Growth, while a significant objective, can also bring its own set of challenges. Expanding our operations and executing our plans efficiently requires careful management and resource allocation. If we encounter obstacles in this process, it not only jeopardizes our growth but may also negatively impact our reputation and credibility. The reputation we've painstakingly built over the years is a valuable asset. Any missteps in managing growth could erode the trust and goodwill we've garnered from the communities we serve and our supporters. Thus, safeguarding our reputation throughout the growth and change process is of paramount importance.

Mitigation Plan: To safeguard our society's culture and values as we expand, we will proactively invest in a strong organizational culture that aligns with our core values. This includes a continued emphasis on leadership development, training, and internal communication to ensure that all team members embrace and embody our values. Additionally, we encourage open feedback channels for our employees, volunteers, and stakeholders, enabling them to have a voice in preserving our unique culture. By prioritizing our culture and values, we aim to maintain our reputation and ensure that our mission remains unwavering, even as we grow.

9. Any leakage or misuse of the data might lead to legal consequences affecting the functioning of the Society.

Potential Risk: In the course of our operations, the society naturally accumulates and manages a vast trove of data pertaining to its beneficiaries and various stakeholders who participate in our projects. This data encompasses personal information, financial records, and sensitive details critical to project implementation and evaluation. However, like any organization, Our Society is not immune to the potential risks of data breaches and unauthorized access or use of this information. The mishandling or improper use of this data can have far-reaching consequences, extending well beyond mere operational disruptions.

Data privacy and protection laws are stringent, and any breach of these regulations can result in hefty fines, legal penalties, and a significant loss of reputation. The consequences of a data breach may lead to legal battles that consume valuable time and resources, diverting attention from the Society's core mission.

Moreover, in a worst-case scenario, a significant data breach could compromise the trust and confidentiality so vital to the relationships between the Society and its beneficiaries and stakeholders.

Mitigation Plan: Establish clear data usage policies and adhere to applicable data protection laws. By proactively safeguarding our data assets and promoting a culture of responsible data management, we aim to minimize the risk of legal consequences and ensure uninterrupted operations in pursuit of our mission.

10. We have entered into partnerships with several Governmental and Non-Governmental institutes to work in collaboration with them for our rural initiatives under educational and healthcare sector. In the event of termination of such arrangements with these institutions, we may have an adverse impact on the implementation of our programmes.

Potential Risk: We have entered into partnerships with the Government including Karnataka Government and Government of India for our initiatives in rural and tribal areas. By leveraging the Government's existing investment in our projects and by engaging with a huge base of community volunteers, SVYM helps to address community problems including education, health & socio-economic programs to improve the quality of life of people. In the event of termination of such arrangements with the State Governments, we may have an adverse impact on the implementation of our programmes.

Mitigation Plan: Being non-political organization, always maintain good relationship with both state & central government. Most of our collaboration with the Government is non-financial & termination of such arrangement will not alter our financial status. Balance between community participation & Government collaboration helps smooth functioning. SVYM also does a thorough research on the value fit between the organization and then proceeds further for engagement while partnering with any government & non-government does. This enables us to anticipate calculated risks that impact our work for community development. And as mentioned our programs being funded by diverse funding agencies will act as a safety net for such

situations.

11. Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.

Potential Risk: Our funding requirements and the deployment of the proceeds generated through the Issue are primarily based on management's best estimates and our current plan. These estimates have not been independently appraised or validated by a bank or financial institution and are, therefore, subject to the inherent risks associated with forward-looking financial planning.

Several factors can introduce variations and unpredictability in our financial projections. These include changes in the cost structure, evolving market conditions, shifts in regulatory requirements, and other external factors that may not be within the control of our management. In response to these uncertainties, we must remain flexible and adaptable. This flexibility means that we may need to revise our expenditure and funding requirements as circumstances change. Such revisions could involve rescheduling, revising, or even canceling planned expenditures and fund requirements based on the discretion of our Board. Furthermore, our schedule of implementation, as described in our current plan, is also subject to change due to various factors. These factors can be both internal, such as operational challenges, or external, like shifts in the business environment or the economy.

Mitigation Plan: Our ability to respond effectively to changing circumstances, whether through adjusting expenditures, revising funding requirements, or adapting our implementation schedule, would be our approach regarding mitigation of this risk.

12. Any variation in the utilization of the Net Proceeds as disclosed in this Final Fund raising document shall be subject to certain compliance requirements.

Potential Risk: As per Regulation 91F of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, a Not for Profit Organization shall submit to the Social Stock Exchange(s) the following statement in respect of utilisation of the funds raised, on a quarterly basis: -

- (a) category-wise amount of monies raised;
- (b) category-wise amount of monies utilised;
- (c) balance amount remaining unutilised.

This disclosure adds an additional layer of transparency and accountability, ensuring that any variations in fund utilization are promptly reported to the stock exchange and the investors.

Mitigation Plan: To mitigate the risk of non-compliance due to variations in Net Proceeds utilization, the Society will establish clear and robust internal controls and reporting mechanisms to ensure that deviations are properly documented, approved, and in line with regulatory requirements.”

13. There is no guarantee that our ZCZP instruments will be listed on the BSE SSE and NSE SSE in a timely manner or at all.

Potential Risk: In accordance with Indian law and practice, permission for listing of the ZCZP Instruments issued pursuant to the Issue will not be granted until after the ZCZP Instruments have been issued and allotted. Approval for listing will require all relevant documents authorizing the issuing of ZCZP Instruments to be submitted. There could be a failure or delay in listing the ZCZP Instruments on the BSE SSE and NSE SSE.

Mitigation Plan: We will maintain a proactive and transparent approach to fulfill all listing requirements and address any potential challenges promptly.

14. We have not made any alternate arrangements for meeting our capital and operational requirements for the Objects of the Issue. Further we have not identified any alternate source of financing for the 'Objects of the Issue.' Any shortfall in raising the issue amount could adversely affect the fulfillment of the Object of the Issue.

Potential Risk: The Society is at risk as it has not put in place contingency plans or explored alternative financing options to meet its capital and operational requirements for the stated Objects of the issue. If the society falls short of raising the expected funds from the issue, it may struggle to complete the Project and create the impact as mentioned in the section 'Objects of the Issue' on page no 32 of this Final Fund Raising Document.

Mitigation Plan: The Society will maintain a proactive approach to cost management that can enhance the society's ability to secure necessary resources, ensuring that planned objectives can still be achieved even if the issue falls short of its target. This will be planned ahead with other funding sources helping us to mobilize the resources necessary to run the projects, especially the institution based activities. Various fund raising activities from different segments of donors will be a strategic approach that has enabled us to meet the operational requirements for raising balance funds. This is done through the internal fundraising team & the management through fundraising campaigns, direct approach of other institutional & individual donors.

15. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, which Applicants may be more familiar with and may consider material to their assessment of our financial condition.

Potential Risk: Our Audited Financial Statements for Fiscals 2021, 2022 and 2023 have been prepared and presented in conformity with Fund Based Accounting System. ‘Generally Accepted Accounting Principles (GAAP)’ are applicable in India are followed in preparation of our financials. Indian GAAP differs in certain significant respects from Ind AS. If our financial statements were to be prepared in accordance with Ind AS, our results of operations, cash flows and financial position may be different. Prospective Applicants should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar.

Mitigation Plan: Our Society is committed to ensuring full transparency and adherence to the highest standards of financial reporting. By continuously improving our financial reporting practices and maintaining a commitment to accuracy and transparency, we aim to provide our stakeholders with a more reliable and comprehensive assessment of our financial condition.

16. If we are unable to manage our growth or execute our strategies effectively, operations may be adversely affected and the social cause that we’re aiming to solve may not be successful.

Potential Risk: In order to grow and reach more people with our programs and projects, we might need to introduce new and improved ways of managing our organization. This includes upgrading our management techniques, how we operate, use technology, manage finances, and deal with our team. However, making these changes can sometimes increase our expenses and require more oversight from our management team.

Moreover, we can't guarantee that every new initiative we take will succeed, or that we'll be able to smoothly implement all the changes in management, operations, finances, and human resources that we plan. If we struggle to handle our growth or if we face challenges in executing our strategies effectively, it might affect our plans to expand operations. This, in turn, could have a negative impact on our organization's goal and prospects for the future.

Mitigation Plan: We recognize the inherent value of objective internal monitoring and evaluation, wherein the findings are analyzed by the teams themselves, leading to greater acceptance and ownership of the suggested course corrections. We are therefore keen on having our own procedures in place for constant monitoring and regular evaluation. The projects have a structured review and monitoring schedule. Regular project reviews are conducted by the DST to analyze the outputs in the light of the stated objectives of the projects.

Periodic external evaluations (Both activity and financial) lend an additional value to the process of monitoring and evaluations by bringing in fresh perspectives, which are adopted in a contextual manner. Such reviews are periodically undertaken by Donor agencies and Government, encompassing the activities and financial management.

17. We may occasionally face budget overruns due to changing field conditions.

Potential Risk: Sometimes, our initiatives might end up costing a bit more than we planned. This can happen because the situation or circumstances in the area where we're working change unexpectedly, which means we need more resources to get the job done. Even though this can happen from time to time, we're committed to doing our best to finish the work when we promised and within the budget we agreed upon. We always strive to stick to the schedule and use the resources we set aside for the project.

Mitigation Plan: To mitigate the risk of budget overruns resulting from changing field conditions, our society will implement a dynamic project management approach. We will regularly assess and adjust our project plans in response to evolving circumstances, ensuring that resources are allocated efficiently and effectively. Our focus will be on proactive monitoring, early identification of potential issues, and agile decision-making to keep projects on track. By adopting this flexible and responsive approach, we aim to minimize the impact of budget overruns and remain committed to delivering on our mission within agreed time frames and budgets.

18. We have borrowed secured term loans for acquisition of fixed assets.

Potential Risk: We have borrowed secured term loans from Canara Bank for acquisition of fixed assets. That could impact both the financial stability and operational flexibility of the Society if we are unable to pay our dues on time. For further details, please see chapter titled “Financial Indebtedness” on page no. 225 of these Final Fund Raising Document.

Mitigation Plan: We are committed to implementing a proactive and strategic approach. Regular financial assessments will be conducted to ensure timely repayment, with a focus on optimizing asset utilization. Further financial reserves will be established to navigate unforeseen circumstances and uphold our financial obligations responsibly.

19. We have not initiated the application process for any trademark or patent protection for the society's name or logo.

Potential Risk: We have not initiated the application process for trademark or patent protection which exposes our society to the risk of potential intellectual property infringement. Without legal protection, there is a heightened vulnerability to unauthorized use, imitation, or misappropriation of our society's name and logo by external entities.

Further there can be unauthorized use by third parties may lead to a loss of control over our brand image, compromising the reputation and recognition we have built over time.

Mitigation Plan: Organization is focusing on the Branding aspects from the last few years & we are in the process of registering our organization logo.

20. There can be instances of non-compliance of the certain acts that are applicable on us and non-filing / delays / incorrect filings in the past with certain Regulatory Authorities. If the Regulatory Authorities impose monetary penalties on us or take certain punitive actions against our company in relation to the same, our business, financial condition and results of operations could be adversely affected.

Potential Risk: There have been instances of non-compliance of certain laws and regulations that are applicable on us and non-filing / delays / incorrect filings in the past with certain regulatory authorities. There can be certain regulations which can be subsequently complied with as specified by applicable law authority. However, our society cannot be assured that even in future no such penalty will be levied. Therefore, if the regulatory authorities impose monetary penalties on us or take certain punitive actions against our society in relation to the same, our business, financial condition and results of operations could be adversely affected.

Mitigation Plan: We will establish a comprehensive compliance framework. Also, we have a dedicate team of Legal advisors who will look into non – compliance of certain acts that are applicable on us.

21. Our programs are spread across states of Karnataka only. Any change in political scenario, change in economic condition, natural calamity or force major event in the states of Karnataka may have a negative impact on our operations.

Potential Risk: Our operations are based out of Karnataka region only and we work with limited government departments. Our program mainly focused on tribal, rural, marginalized communities of Karnataka. Our concentration of programs in one state only increases our exposure to adverse developments related to economic downturn, demographic changes and any force majeure event in these states. In addition, our business may be more susceptible to natural disasters and other catastrophes, public disturbances like riots, strikes, telecommunication failures and political unrest than the operations of more geographically diversified competitors. Any change in political scenario, change in economic condition, natural calamity or force majeure event in the state of Karnataka may have a negative impact on our operations.

Mitigation Plan: Even though SVYM's directly implementation restricted to the state of Karnataka, SVYM has strong presence in all 31 districts of Karnataka. It is not one area of intervention, it works covering Health, Education, Socio Economic Empowerment Program & Training and Research. SVYM is also worked as technical partner in the other states including Andhra, Telangana & Jharkhand. SVYM is in the process of exploring the opportunity to expand activities to neighbouring states & North East states of India. All these will reduce the risk of concentration of activities in one place.

22. Non-compliance of Foreign Contribution Regulation Act may lead to cancellation of FCRA registration, result of which 12A & 80G registration may get cancelled.

Potential Risk: Non-compliance with the Foreign Contribution Regulation Act (FCRA) poses a significant threat to the organization, as it may result in the cancellation of FCRA registration. This, in turn, could lead to the automatic cancellation of the organization's 12A and 80G registrations. Such cancellations could have severe consequences, including loss of eligibility for tax exemptions and potential legal implications, adversely affecting the organization's financial stability, reputation, and ability to carry out its charitable or social activities. It is crucial for the organization to ensure strict adherence to FCRA regulations to mitigate the risk of registration cancellations and uphold its legal standing and operational capabilities.

Mitigation Plan: As a part of our strategy, Organisation has decided to keep Foreign Contribution as low as possible considering the risk associated with it. Today it is as low as 5% of our total income. Also, all our Foreign Contribution are from well known donors only. We do due diligence before accepting any foreign contribution, which helps to reduce the risk. We accept & utilise all our Foreign Grants as per FCRA Rules, this is reducing our risk of cancellation of our FCRA.

23. In future any litigations and tax scrutiny of our organisation and of our management arises may adversely affect our operation, reputation and future fundings.

Potential Risk: The potential emergence of litigations and tax scrutiny against our organization and management in the future poses a significant risk. Such legal and regulatory challenges could have adverse effects on our operations, damage our

reputation, and impact our ability to secure future funding. The uncertainty surrounding legal proceedings and tax investigations introduces financial, operational, and reputational vulnerabilities that may hinder the organization's overall stability and growth prospects.

Mitigation Plan: During project implementation period, the Organisation is bound by statutory compliance audit along with project audit. Other than this internal audit & statutory audit is also happening on regular basis. Audit by multiple agencies reduces the risk of non-compliance. Apart from audit our organization will implement a comprehensive strategy. This includes conducting regular compliance reviews, retaining experienced legal counsel, developing a proactive risk management framework, maintaining meticulous documentation, providing staff training on legal requirements, establishing clear communication plans for stakeholders, ensuring financial prudence and reserves, engaging with regulatory authorities transparently, securing appropriate insurance coverage, and developing scenario-based contingency plans. By prioritizing compliance, transparency, and strategic risk management, we aim to safeguard our operations, preserve our reputation, and enhance our resilience against the uncertainties associated with legal and regulatory challenges, thereby securing our ability to pursue our mission and attract future funding.

EXTERNAL RISK FACTORS

24. We are subject to regulatory and legal risk which may adversely affect our activities.

Potential Risk: Non-profit organizations, registered under Karnataka Societies Registration Act, 1860 and recognized under relevant provisions of the Income Tax Act, are subject to a complex and evolving regulatory landscape in India. This regulatory framework dictates the legal and operational environment within which these organizations must function. Understanding the regulatory and legal risks associated with their activities is paramount, as non-compliance can have serious consequences for their operations and mission fulfillment.

The key concern highlighted in the statement is the uncertainty of future legal and regulatory changes. India's legal and regulatory landscape is dynamic, and laws that govern our society, such as the Karnataka Societies Registration Act, 1860 and Income Tax Act, can be subject to amendments or revisions. These changes may introduce new compliance requirements, reporting obligations, or alterations in the taxation regime for non-profits. Moreover, the interpretation and enforcement of both existing and future laws and rules by governmental and regulatory authorities can significantly impact the way societies operate. The ambiguity or evolving nature of these laws can pose challenges in maintaining compliance and adapting to new requirements.

Staying compliant with these laws and regulations is of utmost importance for non-profit organizations. Failure to adhere to the legal framework can lead to adverse consequences, such as the loss of tax-exempt status, financial penalties, or restrictions on the organization's activities.

Mitigation Plan: We will establish a comprehensive compliance framework. This involves continuous monitoring of legislative changes and ensuring that all activities align with current laws and regulations taking into consideration all the amendments in the legal and regulatory requirements.

25. Changes in applicable law governing corporate social responsibility policies could have an adverse impact on our operations.

Potential Risk: In terms of Companies Act, 2013, companies which meet specific criteria are required to spend a portion of their profits towards activities related to corporate social responsibility policies. Donations and grants made to our society are also received as part of these companies' CSR initiatives. The key concern is that if there are changes in the legal or regulatory framework that reduce the amount companies are required to spend on CSR activities, it could lead to a reduction in donations and grants made in our organization. This, in turn, can have a direct adverse impact on our society's operations.

Mitigation Plan: We will diversify our donor base to reduce dependency on specific contributors, establishing a financial reserve for contingencies, actively monitoring the economic landscape for proactive adjustments, and exploring innovative fundraising avenues. This comprehensive approach aims to enhance financial resilience, ensuring our organization's continued operations and mission fulfillment in the face of economic uncertainties.

26. Changes in applicable law governing foreign contributions in India could have an adverse impact on our operations.

Potential Risk: We have obtained a valid registration under Foreign Contribution (Regulation) Act, and have received foreign contribution of Rs. 7,98,21,491 in F.Y 2022-23. Any modifications to these regulations and applicable laws governing foreign contributions in India could pose adverse effects on our operations, resulting in challenges related to compliance, financial constraints, and potential disruptions in the implementation of our projects.

Mitigation Plan: We have consciously reduced foreign contributions over a period of time & will be actively monitoring legislative developments and engaging in ongoing dialogues with relevant authorities to stay informed and adapt to potential

changes effectively. Additionally, we will diversify our funding sources and exploring alternative avenues to enhance our resilience against the impact of evolving legal frameworks.

27. *The impact of the COVID-19 pandemic or the outbreak of any new pandemic on our operations is uncertain and cannot be predicted.*

Potential Risk: In 2019, the COVID-19 disease, commonly known as “novel coronavirus”, was first reported in Wuhan, China and was declared as a pandemic by World Health Organization on March 11, 2020. A key risk we faced in the achievement of the desired impact under our programmes in the past three years was the COVID-19 pandemic since the pandemic exacerbated all the progress made over the years in terms of education, especially among children and young girls from the most rural, remote communities of India. The remote and underserved communities with whom our society engage for positive impact on their lives in state of Karnataka were badly affected.

In response to such crises such as COVID-19, we may need to divert resources, including personnel and funding, to provide immediate relief and support to affected communities. While this is crucial for humanitarian purposes, it can result in delays in implementing ongoing programs and initiatives.

In response to COVID – 19, the Society has organised Wednesday Webinar in which every Wednesday from 7 pm to 8 pm, SVYM conducted a webinar series for young students. The webinar series was launched in Dharwad and Kalaburagi Districts in 2021 and has continuously engaged over 1500 school students in over 50 Govt schools in the region.

Learning on a screen became a necessity during the pandemic and an entire ecosystem evolved to support online learning across the socio-economic strata. As the students returned to offline learning in schools, they still continue their online learning engagement, often referring to lessons on Youtube and understanding the concepts through rich visual media, anytime and anywhere.

Under the WASH project, training sessions on COVID-19 and WASH for the district and taluk level officials were organised to build their capacity for effective planning, implementation and monitoring at different levels on COVID-19 and WASH.

Mitigation Plan: By addressing these challenges like we did in case of COVID-19 crises, we aim to minimize the potential delays in program implementation caused by the evolving nature of the pandemic and its impact on our operations. We have adopted relevant technologies & methods to reach out to the community & cater them with necessary requirements.

28. *The potential consequences of a natural calamity in our organisation are uncertain and cannot be accurately predicted.*

Potential Risk: Natural disasters, including earthquakes, hurricanes, floods, and wildfires and pandemics, pose a significant threat to the operations of our Society, particularly those focused on community development and humanitarian efforts. These events can have widespread and lasting effects, with the potential to disrupt programs and create challenges that demand immediate attention. In response to such crises, During Covid pandemic, when schools were closed, we have changed our implementation strategy & responded to community’s need by addressing immediate need of food kits, medical support, online education program wherever possible & counselling support. Immediately after reopening of schools since children had issues in learning because of long gap of offline classes, we ran bridge course to address learning gaps.

Similarly, during floods & landslides at Kodagu, when people were in distress after losing their land, house & properties & their family members & relatives, we were forced to change our focus area to address immediate requirement of the people.

We also prepare and discuss revised strategies with the donors get their approval before implementation as this is crucial for humanitarian purposes, it can result in delays in implementing ongoing programs and initiatives.

Mitigation Plan: The organization will develop detailed contingency plans outlining specific actions to be taken in response to each scenario. Ensuring that contingency plans include provisions for resource allocation, communication strategies, and coordination with local authorities and partners. Also, prioritize programs that have a lasting impact and can withstand disruptions, reducing the overall vulnerability of our initiatives.

29. *As a non-profit organization, a reduction or discontinuation in the donations or grants we receive may have an adverse impact on the operations of our Society.*

Potential Risk: We are a society registered under Karnataka Societies Registration Act, 1860. Accordingly, the operations of our society are highly dependent on the receipt of donations and grants. The donations and grants received by our society for the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 were ₹ 3,366.65/- lakhs, ₹ 3,164.10/- lakhs, ₹ 2,399.35/- lakhs. In the event that donations and grants we receive reduce or are discontinued including on account of such donations and grants being focused on projects of other NGO’s, it may have an impact on the program, operations and financial

condition of our Society.

Mitigation Plan: We will diversify our donor base to reduce dependency on specific contributors, fostering transparent communication to deepen donor relationships and commitment, establishing a financial reserve for contingencies, actively monitoring the economic landscape for proactive adjustments, and exploring innovative fundraising avenues. This comprehensive approach aims to enhance financial resilience, ensuring our organization's continued operations and mission fulfillment in the face of economic uncertainties. Potential leads will be identified a few months before the closure date who could continue to support such projects depending upon the phase of the project by analyzing whether its in maturation phase where the community ownership has been initiated or expand projects as replicable models. We also ensure the community's needs are not left unaddressed at any point of time.

30. Any Penalty or demand raised by statutory authorities in future will affect our financial position of the Society.

Potential Risk: It's crucial to acknowledge that our society may be subject to fees and penalties in compliance with the prevailing legal regulations. Any potential claims or penalties imposed by the relevant authorities in the future, pertaining to either previous years or the ongoing fiscal year, have the potential to significantly impact the financial stability and resources of the Society. Hence, it is imperative for the organization to proactively manage its obligations and maintain financial prudence to ensure the uninterrupted pursuit of its philanthropic endeavors.

Mitigation Plan: In the 39 years of existence & service we always prioritized statutory compliance. We are committed to strict adherence to statutory compliances and regulations to minimize potential penalties in the future. Our proactive approach will ensure that we meet all legal requirements in a timely manner, reducing the risk of financial impact due to non-compliance of legal requirements.

RISKS RELATED TO ZCZP INSTRUMENTS

31. The tenure of the ZCZP Instruments will be the date on which the Objects of the Issue have been met or 5 years from the Deemed Date of Allotment, being the timeline for completion of the Objects of the Issue. No amount is repayable on expiry of such tenure of the ZCZP Instruments.

Potential Risk: The tenure of the ZCZP Instruments will be the date on which the Objects of the Issue have been met or 5 years from the Deemed Date of Allotment, being the timeline for completion of the Objects of the Issue. ZCZP Instruments are instruments which by their nature do not carry any interest and no amount is repayable to investors even at the expiry of the tenure of the instruments. Potential investors should be aware that even at maturity, the principal amount on investments in ZCZP Instruments are not repayable. Such non-redemption feature of the ZCZP Instruments is likely to limit their market value.

Mitigation Plan: It's important to note that investments in ZCZP instruments typically do not come with an expectation of future financial returns. Thus, informing potential investors about this characteristic of the instrument should be sufficient to mitigate the associated risk.

32. There is no secondary market for ZCZP Instruments as ZCZP Instruments listed on the Stock Exchanges issued by non-profit organisations are not tradable.

Potential Risk: ZCZP Instruments issued by non-profit organisations and listed on the Stock Exchanges are not available for trading in the secondary market. Accordingly, an investor will not be able to trade such ZCZP Instruments or redeem their investments in such instruments issued by our Society.

Mitigation Plan: It's essential to emphasize that investments in ZCZP instruments are inherently distinct from traditional investments in that they do not entail an anticipation of future financial returns, such as interest or dividends. The investor's primary objective with this instrument is typically not to earn from it instead it should serve the purpose for which it has been given, which effectively mitigates the associated risk.

33. There is no guarantee that the Issue will be successful and we will be able to achieve the Objects or the ZCZP Instruments will be listed on the Stock Exchanges in a timely manner or at all, or that such listing that they will remain listed on the Stock Exchanges.

Potential Risk: If our Society does not receive 75% subscription in the Issue, the Issue would be deemed to be unsuccessful, and we will have to refund the entire subscription amount, in accordance with applicable law, within 8 working days of Issue Closing Date.

Mitigation Plan: Acknowledging the unpredictability of a successful Issue and listing of ZCZP Instruments on Stock Exchanges, we will enhance our approach through meticulous due diligence and tailored market research. Collaborating with experienced

advisors and ensuring transparent communication with stakeholders, we aim to align our initiatives with donor expectations and regulatory requirements. By maintaining a commitment to compliance, consistent organizational performance, and proactive adjustments based on evolving dynamics, we strive to increase the likelihood of achieving our fundraising goals and securing sustained recognition on Stock Exchanges.

DETAILS OF THE PROJECT – “VIVEKA TRIBAL CENTER FOR LEARNING”

This project aims at to provide Education to the underprivileged children with a special focus on the girl child under the institution named Viveka Tribal Center for Learning based on the recommendations of the National Education Policy 2020.

Education of the underprivileged with a special focus on the girl child

Viveka Tribal Center for Learning caters to tribal children residing in and around Mysuru District in Southern Karnataka. The school is located in Heggadadevanna Kote (H D Kote) taluk has a population of over 2.6 lakhs with 90.2% people living in the rural areas and only 9.8% living in urban areas.

Reason for being underprivileged population

The taluk is one of the most backward taluks of the state of Karnataka and continues to perform poorly as per the Human Development Index (HDI) and other development indicators.

The taluk also has a sizeable population (est. 18,000) of the forest-based tribal groups namely Jenu Kuruba, Kadu Kuruba, Yarava, Soliga and Paniya. The tribal settlements are called haadis and the 127 haadis of the taluk are sparsely located along the fringes of the Bandipur and Nagarhole National Parks.

The Jenu Kuruba community forms the majority of the indigenous tribal groups in the taluk and are among the most primitive tribal groups in the country. Most of them are employed as agricultural labour and migrate during the harvest seasons to the neighbouring districts. Much of this community continues to live in poor socio-economic conditions.

These tribal community who are originally forest dwellers were thrown out of forest due to two major development projects of Government- 1. Regulation of the forest Act and declaration of Tiger Reservoir along the Bandipur & Nagarahole National parks. 2. Construction of the Kabini Dam along the same area.

There was no structured rehabilitation & resettlement done for these tribal communities which is one of the main reasons for the Poor socio economic conditions. These communities, originally dwelling in the forest, were relocated to 127 haadis along the remote fringes of the forest.

These difficult conditions has resulted in the limited access to primary health, elementary education and other facilities.

KEY APPROACHES

Following are the approaches which will be implemented by the Society to meet the ultimate object of the issue-

Focus on the girl Children

The school has given importance to education of the girl child as the tribal girl children are married off as soon as they reach their adolescence.

Tribal children and women are Anaemic by nature which could be due to lack of access to required nutrition needed for their growth and development. This has remained as a unaddressed challenge because of the economic challenge and their migration to different places in search of livelihood.

This poor health condition has also resulted in High Risk Pregnancies among most of the Tribal Women.

Lack of awareness among the tribal parents on the adverse consequences of early marriages, are also one of the main reasons.

All such health and social challenges are either limiting access to basic education for the girl children or they are dropping out of school at an early age.

These multiple issues can be addressed through the holistic education approach of VTCL focusing on Girl children.

This situation is slowly changing which is indicative by the number of admissions increasing from 12 (27%) to 218 (51%) over the last 30 years.

The school collaborated actively with the other departments of the organization and the Government to ensure that every girl child is admitted to school along with ensuring completion of education and appropriate nutritional supplementation.

Adoption of technology to promote learning & access to education with focus on Sports & Arts Integration of vocational education & enabling children to make inform career choices

Educating tribal children needs a different approach which should carefully focus on sensible aspects that has emerged as socio economic challenge inhibiting the tribal development. The education methodology is designed by analyzing the approaches which are contextually relevant & culturally appropriate making is acceptable by the tribal community.

Academics (including co-scholastic areas) & Learning Outcomes – To promote flexibility along with achieving the desired learning outcomes, the school shall design engaging content for children in their curriculum. This is done with Technology Enabled education – with audio visual curriculum designed to make the concepts more clear for students and also provide hands on experience for better understanding.

Technology usage in VTCL

VTCL students from class 8 to 10 are exposed to technology enabled solutions to access rich multimedia digital content of the state board curriculum which primarily address on improving the conceptual understanding among the students and improve result.

School also has smart boards installed in classroom for the audio-visual curriculum. The audio-visual learning materials encourage self-paced peer-to-peer learning among the High School students. In addition to technology enabled solution STEM offers hands-on exposure to students to enhance their skills and improve the knowledge on science concepts by doing experiments under the guidance of our teachers. Also, VTCL has a computer lab which can be used by up to 20 students at a time. Students also are trained with Do-it-yourself kits of science and math concepts. Primary children are provided numeracy kit and other board games to encourage them to learn math with simple approach

Integration of Arts, Sports & Skills and Setting Benchmarks – Promoting talented students from among the tribal communities by integrating arts, sports and skills into the regular curriculum. Natural talents in sports & performing arts are identified among children and they are further coached to excel in the specific talent. They are also provided exposure to certain platforms to showcase their talent and encourage them to take it up as a career.

Vocational Education - Students are also Introduced to Basic Technology from class 6th to 10th. Here the basics of Mechanics, Plumbing, Electronics and agriculture and other skills for livelihood are provided for children. These children during their 10th class are also assigned to take up community projects to implement these skills practically. So that they identify their strengths and plan their career ahead enabling them to make informed career choices.

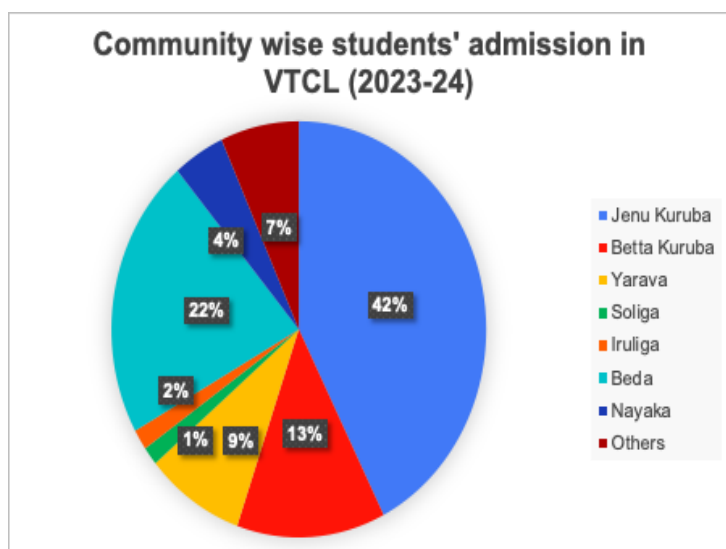

NEED FOR INTERVENTION IN RURAL AND TRIBAL AREAS OF H D KOTE (HEGGADDEVANNA KOTE) AND NEIGHBORING TALUKS

The Heggadadevanna Kote (H D Kote) taluk has a population of over 2.6 lakhs with 90.2% people living in the rural areas and only 9.8% living in urban areas. The taluk has an average sex ratio of 987 females per 1000 males and an average literacy rate of 62.7%. The taluk also has a sizeable population (est. 18,000) of the forest-based tribal groups namely Jenu Kuruba, Kadu Kuruba, Yarava, Soliga and Paniya. The tribal settlements are called haadis and the 127 haadis of the taluk are sparsely located along the fringes of the Bandipur and Nagarhole National Parks. The taluk is one of the most backward taluks of the state of Karnataka and continues to perform poorly as per the Human Development Index (HDI) and other development indicators.

Highlights of the Census 2011 data of H D Kote taluk			
Literacy	Total- 64.11% Male- 71.2% Female- 56.9%	Population Distribution	Rural- 90.2% Urban- 9.8%
Average Sex Ratio	987	Child Sex Ratio	994
Scheduled Caste	27.8%	Scheduled Tribe	23.6%
Estimated population of the Forest Based Tribal Groups – 18,000 (25% of ST population, 6.9% of total population)			

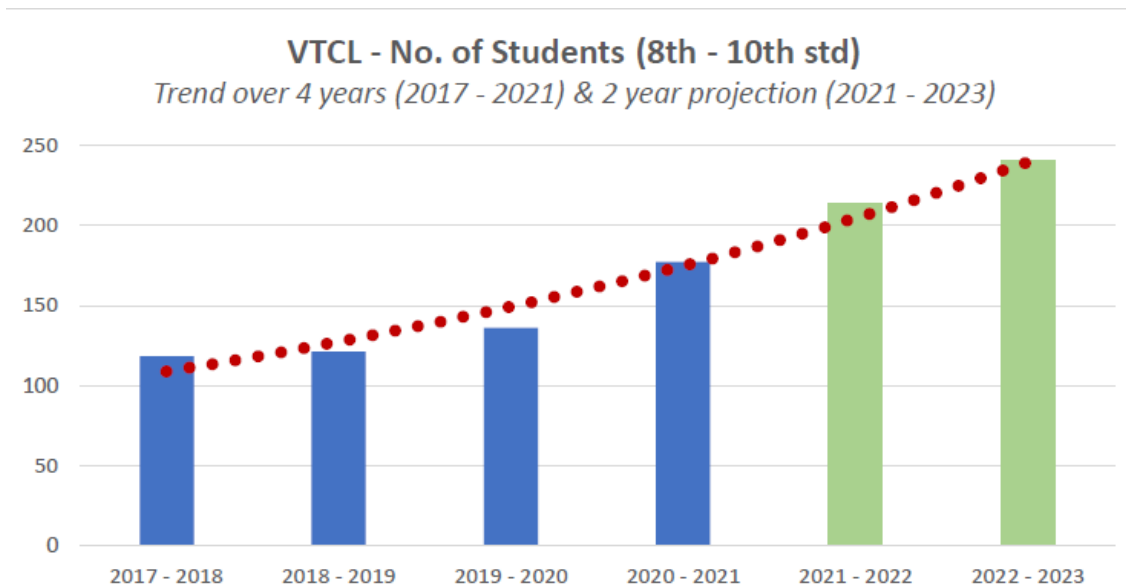

There are 4 major forest-based tribal communities in the H D Kote taluk – Jenu Kuruba, Kadu Kuruba, Yarava, Soliga. These communities, originally dwelling in the forest, were relocated to 127 haadis along the fringes of the forest. They have limited access to primary health, elementary education and other facilities. The Jenu Kuruba community forms the majority of the forest-based tribal groups in the taluk and are among the most primitive tribal groups in the country. Most of them are employed as agricultural labor and migrate during the harvest seasons to the neighboring districts. Much of this community continues to live in poor socio-economic conditions.

Every year, students from about 60 tribal haadis join VTCL and a majority of them are from the Jenu Kuruba community.

Over the last 4 years, the increase in the number of admissions has been very sharp in the High School section and is projected to cross 240 students in the next 2 years.

The Government had started 10 Ashramshalas in the H D Kote taluk to provide access to elementary education for the tribal communities. Over 1000 students from across the taluk study in these residential schools. However, these schools are run only till 7th std. SVYM has been working with these schools to develop contextually relevant learning materials and develop the teachers' capacities. Most students going to the Ashramshalas from B Matakere, N Begur and D B Kuppe Gram Panchayaths seek admission in 8th std in VTCL as there are no other Govt. residential schools nearby. The school (VTCL) has 80 students (2 sections) studying in 8th std and already reached the maximum limit. However, the infrastructure today is insufficient to support these students and also the projected increase in the number of students over the next 2 years.

Further, the school provides accommodation facilities to all students from 6th std. Presently, a fully functional girls hostel (with a capacity of 120 girls) provides accommodation to about 180 girls. The hostels also don't have hot water supply. The school also shares its facilities (Boys' hostel and Dining hall) with the teacher training center. The kitchen uses conventional cooking system and equipment that operates on LPG. The school has a mud-track and is the site for the local sports meets. However, the playground is not fit for use during the monsoon because of heavy rains and water stagnation.

The existing facilities are not adequate for the student strength. The heavy monsoon also renders many of the facilities like the open classrooms and the sports facilities unusable for much of the first semester. The lack of accommodation facilities for staff is a challenge considering the safety of students on campus and also reduces the possibility of engagement with the students during the study hours. There is an immediate need to strengthen the existing infrastructure on the campus to cater to the increasing number of students in the school.

The school shall be modeled based on the recommendations of the National Education Policy 2020. Building on the strengths of the existing school, the 'new' VTCL shall be an education institution in which / where:

- Every student feels welcomed and cared for
- Safe and stimulating learning environment exists
- Wide range of learning experiences are offered
- Good physical infrastructure and appropriate resources conducive to learning are available to all students

Proposed Impact and Key Performance Indicators (Year 2024- Year 2029)

Proposed Impact

- To decrease the gap of Enrollment, Gender Parity and Learning outcomes between the tribal community and the State and National Averages.
- Students shall complete Secondary education (2 years) and Senior Secondary education (2 years) or Equivalent education
- Student able to make informed career choices and pursue professions contributing directly and indirectly to the community development
- Parents and the community at large actively participate in school activity and contribute positively to students' learning outcomes.

Key performance indicators

- **Secondary Education** - Enrollment, attendance & retention of students from 8th to 10th standard
- **Continuing Education** - Enrollment & retention of students from 11th to 12 standards (or Equivalent courses)
- **Learning Outcomes**
 - Achievement of age-appropriate learning outcomes (As prescribed by DSERT - Department of State Educational Research and Training, Govt. of Karnataka)
 - Participation in district, state and national level competitions and events showcasing the talents of students in scholastic and co-scholastic areas
- **Diversity of Career Choices** - no of students pursuing diverse streams after 10th standard (including Vocational, Sports & Visual Arts)
- **Community Engagement**
 - Attendance and participation of parents and community members in school activities and parent-teacher meetings
 - Parent Savings towards children's education

OVERVIEW

Swami Vivekananda Youth Movement (SVYM) is a development organization, engaged in building a new civil society in India through its grassroots to policy level action in Health, Education, Socio Economic Empowerment, Training & Research sectors.

Our vision of building ‘**a caring and equitable society free of deprivation and strife**’ is an ongoing pursuit, at best led by our community partners through their earnest and meaningful participation. Towards fulfilling our goal of achieving ‘community-driven development,’ SVYM has invested itself into strengthening the capacity of the community to meet their basic human needs and in enhancing and sustaining the quality of their lives with self-directed and community-driven efforts.

These development initiatives are catered to the community through our broader Aims & Objectives of promoting Charity, Give Medical assistance to the poor & needy patients, Promote Health, Education & family planning, to take active interest in civic, socio-economic moral welfare of the community and to take up community development activities in all areas of tribals, rural, urban and the benefits of the organization shall be open for all irrespective of caste & religion.

Our Organisation provides free residential elementary and secondary education for children hailing from marginalized & vulnerable communities. Complimenting government resources with innovative programmatic models, the organization has designed education programs as a community movement. Our healthcare initiatives are designed to cater to the vulnerable community by making it accessible, affordable and impacting on the overall well-being of the community. Our Socio-Economic Empowerment program focuses on Integrated Tribal development addressing the social issues by formation of SHGs, facilitating social entitlements, augmenting infrastructure, providing skill training for youth, Women & Men and helping them to become self-reliant. The training and research sectors at different phases of engagement with stakeholders from sectors of Government, corporates, NGOs, youth and the general public are focused by developing human & Social capital to ensure provisioning to partnering for the common goal of nations development.

Vivekananda Memorial Hospital (VMH)

The Vivekananda Memorial Hospital (VMH) is established in 1998, stands as a vital rural healthcare initiative in Karnataka, serving a population of 300,000 and witnessing over 50,000 patients annually from Saragur and H D Kote taluks. As a 100-bed multispecialty hospital with 24/7 emergency care, VMH functions as a referral center for rural and tribal communities, complemented by community health services and acting as a field lab for research projects. Through collaborations with entities like DBT Govt of India, CIHR Canada, SA MRC, and NSFC China, VMH engages in the EINSTEIN research project, aiming to mitigate the long-term risk of Non-Communicable Diseases through interventions spanning pre-conception to early childhood. Additionally, VMH plays a pivotal role in medical education by providing MBBS and BAMS internships, along with medical and Ayurveda post-graduation opportunities, fostering community exposure for students from various colleges and universities. Furthermore, as a sub-recipient for SAATHI, SVYM, in collaboration with the Ministry of Tribal Affairs (Govt of India), actively contributes to the Elimination of Mother to Child Transmission of HIV & Syphilis through a Public Private Partnership, while concurrently building human and social capital through healthcare, education, and skilling initiatives.

Social Impact created in Health sector

- Fulfilling our goal of promoting health & well-being, preventing disease and restoring health through equitable & cost-effective health and wellness services to rural and tribal populations in Saragur, H D Kote and neighboring areas.
- ‘Our rural hospital has an average annual footfall of 45,000 individuals. Throughout the COVID-19 pandemic, the hospital’s Rural COVID Care Facility served 200+ mild to moderate COVID Positive Cases with accessible care, reducing the burden on urban health facilities already under stress. The organisation served several more through Home based COVID Care services in multiple locations.
- With 65% of health care cost contributed by the community and only 35% contributed by SVYM towards subsidized health care, Vivekananda Memorial Hospital is inculcating ownership and promoting a health seeking behaviour in the communities - as they are not consumers of the services offered, but customers who are paying for the services and in return demand quality, preserve their dignity and take responsibility of their own health and wellbeing.
- We began with 6% institutional delivery in tribal women when the program was initiated.
- Under Project Infertility Care 19 Families have conceived after appropriate treatment and support.
- In 2022, we were able to achieve 99% Institutional Childbirth and zero maternal deaths consecutively for 3 years. The program serves over 51,000 tribal families including Particularly Vulnerable Tribal Groups (PVTG) in three southern districts of Karnataka.
- The program has evolved from provisioning to partnering with indigenous tribal communities with the tribal women and their families actively participating in matters involving maternal and newborn health through regular mothers meetings with the RCH Program of SVYM.
- SVYM’s growing understanding of the intricate cultural and contextual aspects of communities we serve has helped in making the program goals practical, relevant and appropriate to the ground realities, enabling an environment where the tribals develop trust in modern health care and demonstrate compassionate adherence leading to positive behavioural change. This has encouraged tribal families to see and engage with us as equal partners and lead us in matters of their own development.
- Transitioning towards partnership in development with multiple stakeholders including Govt. community & the Forest Departments, all working towards maternal newborn wellbeing has led to a sustainable and community centric development.
- **Impact of Financing WASH Model**
 - 18 SHG members-initiated income generation initiatives in their respective villages. All have constructed toilets with the profits earned from these businesses.
 - Women entrepreneurs involved in manufacturing of Sanitation products have built toilets for themselves.
 - On behalf of International Women's Day, the entrepreneurs made 10 toilets functional and spread awareness in the villages

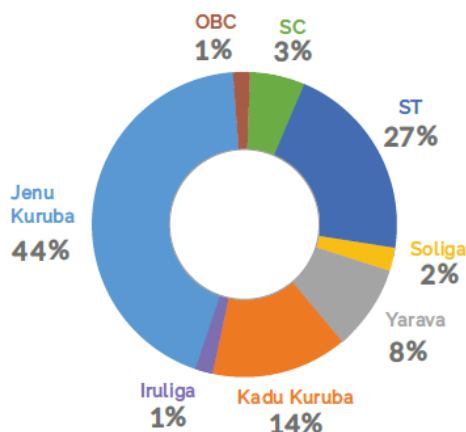

Viveka Tribal Centre for Learning (VTCL) –

Programme Details: Viveka Tribal Center for Learning (VTCL) started as an informal school in 1988 with 28 students in an empty cowshed. The school was recognised by the Govt. in 1990. Located in a remote tribal village in Hosahalli in H D Kote and abutting Bandipur National Park on side and only separated by a trench and electric fence, the school today provides education to 500+ students. Over the last 33 years, the tribal school has evolved from providing access to education (focusing on admission, nutrition, attendance & retention) to providing ‘holistic’ education by focusing on building the human capital of the students through overall development of physical, intellectual, emotional and spiritual aspects. The students come from about 60 tribal villages (haadis) of H D Kote and neighbouring taluks. VTCL is a state-board school and also the only high school of the gram panchayath of N Begur. This school is fully residential from grade 6 to grade 10 (over 315 students).

Target Segment: VTCL has 45% girls and a majority of the students belong to the Scheduled Tribes esp. the Indigenous Tribal groups Jenu Kuruba, Kadu Kuruba, Yarava and Soliga. Jenu Kuruba Tribe have been given the status of Particularly Vulnerable Tribal Group (PVTG) by the Govt. of India.

Community-wise representation of students at VTCL
(All tribes listed under Scheduled Tribes of India)

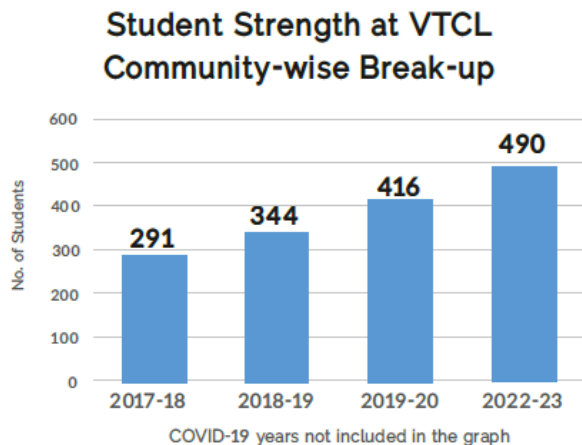

Program Activities :

1. Prathibhanveshane – Discovering rural talent in sports and arts

- The first ever Prathibhanveshane was hosted at VTCL with unique objective of indentifying talented rural and tribal students from other rural schools in Karnataka and giving their talent a boost by nurturing it at our tribal school.

Project Outcome :

Achievement

- The Viveka Tribal Center for Learning (VTCL) was started as an informal school in 1988 with 28 students. Located in Hosahalli, on the fringes of the Bandipur National Park, the school today provides education to 550+ students.
- With consistent efforts of the school, the SSLC pass % have improved steadily over the past 4 years with a peak performance of 98.5% in the year 2022-23.
- 100% of students who have passed out have continued education after SSLC.
- The school was started informally with 28 students. In the year 1990 – 91, the school had 44 students (32 boys and 12 girls). Over the last 30 years, the admissions have steadily increased to over 500+ students. This can be attributed to the increased awareness among the tribal communities as well as the consistent efforts of the school to enhance admission and avoid out-of-school children (OOSC).
- The school has been able to reduce the dropout rates from over 15% to 4%.
- 97% students in VTCL belong to the Scheduled Tribes, 90% of the STs belong to the Forest-based Tribal Communities of H D Kote & neighboring taluks
- In the first 5 batches of students of VTCL taking SSLC examinations, a mere 24.8% students were girls. This has now increased to 50.9% along with the actual number of girls increasing by 2.5 times

90% Tribal Parents attend Parent Teacher meet

Roughly 20 years ago, parents from the indigenous tribal groups living on the fringes of Bandipur Tiger Reserve would enrol their children in our residential school so they could go to work in the neighbouring districts. Meals and safety of the children was an added incentive. During vacation, many children would drop out. Much has changed since then.

Today, in a parent teacher meet, the participation of parents is enriched by questions related to academic performance, career options & comparison of the facilities offered by other schools. Drop outs are near 0%.

Viveka Tribal Centre for Learning, for the first time, had to turn down admission applications from tribal parents with an assurance that the children will be taken next year. If not for the temporary closing down of schools due to Covid-19, the school strength would've been 470- highest ever in 2020-21

Viveka School of Excellence (VSOE)

Program Details : The Viveka School of Excellence was started in Saragur in 2002. Located on a campus of over 10 acres, the school today provides education to over **600 students** travelling from over 40 villages across the taluks of Saragur and H D Kote. VSOE is affiliated with the CBSE and was the only such school in a radius of over 50 km until last year.

The school has consistently achieved **100% results** in the Secondary School examinations (10th Board) and the alumni of the school have gone on to study in reputed higher education institutions like **IITs, IISc, NCBS**, etc. The school recruits teachers from both the local community and reputed teacher training institutions from across the state of Karnataka and maintains a healthy pupil-teacher ratio (PTR) of 1:25. The school promotes higher education and continuous capacity development among teachers. Over 90% of our teaching staff have qualified in the Teacher Eligibility Test (TET and CTET).

To strike a balance between providing quality education in rural areas and the affordability of such an education, the school charges a nominal fee of Rs 21,000 (1st std) to Rs 31,000 (10th std) per annum. The fee collected from the students is used towards the operational expenses of the school (i.e. salaries, running costs; excluding capital expenses, loan repayment).

Goal : Holistic education for rural communities.

Target Segment : VSOE provides education to students travelling from over 40 villages across the taluks of Saragur and H D Kote.

VSOE as a Sainik School

In 2022, VSOE has got approval from as a new Sainik School under the aegis of Sainik School Society (SSS), Ministry of Defence, Government of India in August 2022. The objective behind Prime Minister Shri Narendra Modi's vision of setting up 100 new Sainik Schools is to provide quality education to the students in tune with the National Education Policy and give them better career opportunities, including joining the Armed Forces.

VSOE – Science Exploratory Park

The school also has an outdoor Science Exploratory Park with over 70 equipment to create an ambience for students to learn by doing. The science park has over 3000 student visitors annually from nearby schools and is the first block-level science park in the state of Karnataka. It was set up with the financial support of the Karnataka Science and Technology Promotion Society (KSTePS), Government of Karnataka.

VSOE's Science Exploratory Park attracts over 3000 students annually from the local areas. The learnings from this pilot have been replicated in 23 other mini-science resource centres across the state.

Viveka Scholar Program

Program Details: Initiated in 2006 identifies aspiring students from the marginalised community to pursue 11th & 12th class with special focus on girl child education. Free residential education is provided for 2 years for students across Karnataka.

VSP was operating Learning Centres which provided opportunities for students to attend Govt PU colleges while getting additional academic support from the learning centres along with life skills, career guidance and counselling support. It was observed that students from multiple colleges found it difficult to manage their time and sometimes had repetitions of classes. This resulted in poor attendance and relatively lower academic performance. Students would also have limited exposure to preparations for the varied entrance exams.

It was then decided to work with private PU colleges to offer quality education at an affordable cost to ensure better learning outcomes and performance in entrance exams whilst enabling the students to manage their time and cope with the pressures of their socio-economic background.

Now, VSP collaborates with multiple colleges at the Pre-University level to offer subsidised education to the students selected. VSP has MoUs with 9 colleges to offer admissions to students at 50% or lower tuition fees. This tuition fee up to a maximum of Rs 45,000 is supported by VSP while the students contribute Rs 3000 – Rs 10,000 per annum.

Every student under the program receives support under 6 main verticals from financial assistance to guidance & counselling. These include

- Tuition Fee
- Hostel Fee
- Mentoring & Counseling Support
- Parents Meetings & House Visits
- Life Skills & Co-Scholastic Areas
- Career Guidance & Linkages

SVYM believes investing in building the capacity of our younger generation is an investment in developing the human and social capital leading to positive socio-economic growth. Programs like Viveka Scholar Program are also designed to bridge the gaps in the continuum of education of students who may drop out due to socio-economic hurdles and ensure the students make a smooth transition from primary to secondary to higher education.

Goal : To support socio - economically challenged, academically meritorious students to excel and pursue meaningful professional education.

Target segment : SVYM provide scholarship to marginalised communities of Mysuru, Dharwad & Bengaluru Districts for secondary education specially girls education.

Program Activities :

1. Academic & financial assistance to students in Pre-University

- In 2022-23, 247 Students (213 girls) were awarded scholarships to continue first and second Pre-University education under VSP.
- The students have taken admission in 11 Pre University Colleges in Dharwad, Hassan, Kalaburagi, Bengaluru and our own residential college Viveka Pre University College (VPUC) in Saragur. 113 VSP students are studying in VPUC.

Statistics of FY 22-23

Scholarship for Higher Education

A total of 258 students were awarded scholarships to continue higher education (224 girls and 34 boys).

Viveka Pre University College (VPUC)

Program Details : The Viveka Pre University College provides accessible pre university education in science streams to rural students. The college is situated in Sargur, the college provides hostel facility to students . Complementing the SVYM’s Viveka Scholar Program (VSP), VPUC acts as a vehicle to support the academically meritorious students engaged by VSP by offering them admission. Both the programs run hand-in-hand to benefit the Pre-University students.

Goal : To demonstrate a sustainable & affordable model of scientific & holistic education.

Target Segment : SVYM provide secondary education to marginalised communities of Mysuru, Dharwad & Bengaluru Districts .

Program Activities:

1. A rigorous selection process to support deserving students

- For higher education scholarships in 2022-23, we received 8,938 applications. 5,721 took two screening examinations out of which 550 students were shortlisted for personal interview. The final list of 131 were supported with scholarships.

36 VPUC students cleared the entrance examination of Azim Premji University. Out of these 10 students have

opted to join the dual undergraduate degree in science education with 100% scholarship.

VPUC Students made visit to reputed technical colleges and universities, like NITTE, Mangalore.

School Education Program

Program Details : SVYM started working with the Department of School Education, Government of Karnataka in the 1990s to promote access to school education with a focus on the girl child and the children in underprivileged communities. Today, the School Education Programs of SVYM work with over **300 Government schools** across the state of Karnataka. The program has been accepted by the Education Department and in multiple districts, seen as a partner for promoting science education and ensuring low or no dropout rates. **The pilots with the inclusion of electronics-based DIY kits, vacation camps and the coding platform in Kannada have been successful.**

Components of School Education Program

- STEM Kits in Higher Primary Schools -

The STEM Kits are aimed at promoting inquiry-based learning among students to learn basic science and mathematics and understand their relevance in daily life. The learning materials include –

- 1st – 5th std – Activities & board games based on numeracy
- 5th – 8th std – Thematic science hands-on experiments to focus on the exploratory nature of science

A mini library is also introduced in the schools which are run by the students. Along with promoting a culture of reading or referring to books (among other resources) to learn new concepts, students are encouraged to share their learning with the other stakeholders in the schools and their peers in other schools. Books are available in the local language.

- Student Driven Learning Centres –

A SDLC setup in a Government High School uses technology to promote peer-to-peer and self-learning among high school students through the use of audio-visual materials based on the curriculum. The AV content has been developed by SVYM and is made accessible to students over the tabs/laptops provided to schools.

- Mobile STEM Labs -
The Mobile Science Lab shall make the equipment available at a shared cost and ensure optimal utilization of the materials along with creating numerous opportunities for the students and teachers of multiple to interact with each other. Each mobile science lab is equipped with 7-8 sets of equipment required to conduct experiments and improve the children's understanding of the curriculum.
- Scholarships -
After the students graduate from High Schools, meritorious students from poor socio-economic backgrounds are identified through a thorough multi-step process as given below. Usually, the selection process takes about 8 months from Registration to Admission. For the academic year 2023-2024, the admission process began with over 12,000 registrations from across the state for 200 scholarships being awarded. SVYM has an MoU with like-minded PU colleges across the state. These colleges offer admissions to the students of the Scholar Program at a discounted rate (usually around 50% of the fee) and up to Rs 35,000 of the fee is supported by the program.

Goal : Access to Equitable and inclusive school education

Target Segment : SVYM's with collaboration of over 270+ Govt. Schools to enhance the learning environment for students by developing and deploying low-cost tech-based educational tools and capacity building of teachers. The program expanded to 14 locations in 4 districts in Karnataka this year.

Program Activity :

1. Provide exposure to STEM education & facilitation

- The mobile STEM (Science) lab on wheels was inaugurated on 14th November 2023 in Govt. Junior college in Madikeri.
- SVYM has been able to reach 4,611 students from 49 Govt. schools across Madikeri & Virajpet taluk of Kodagu district.

2. Wednesday Webinar - Keeping the good practices from COVID-19 with online learning

- SVYM conducted a webinar series for young students. As the students returned to offline learning in schools, they still continue their online learning engagement, often referring to lessons on Youtube and understanding the concepts through rich visual media, anytime and anywhere.

3. Anveshane 2023 - Discovering talent in rural India

- The very first Anveshane 2023 by SVYM this year attracted 2000 students from 24 districts of Karnataka who took an online screening exam. 126 shortlisted students (79 girls) representing 15 districts came for a two

- day residential camp at SVYM's V-LEAD in Mysuru along with their parents.
- At SVYM Anveshane, many students performed a science experiment for the very first time, many tried their hands on coding or even hands on a computer for the first time.

A student performing a science experiment as part of the competition

- The winners of the event were given a scholarship and also connected to SVYM's scholarship program.

4. Science collaboration with Qualcomm

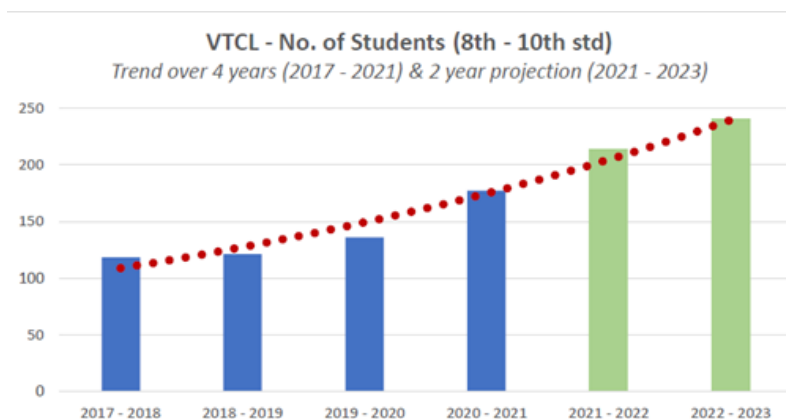

- Adarsha Govt. School in Nanjangud welcomed volunteers from **Qualcomm** for engaging with the school students and sharing insights from their own life and professional experiences. The school teachers demonstrated the science and mathematics experiments they themselves built for the school labs. The excitement of students making science models with a team of engineers who are building future technologies like the 5G was palpable.

5. Equitable Education for Rural & Tribal Communities

- A pilot project - Equitable Education for Rural Communities Project (EERC). The project takes a gram panchayath as a unit for implementation model, moving away from a school centric model to a community centric model.
- The equitable education program is engaging 89 anganwadi centres, primary and high schools in three diverse gram panchayats.

METRICES TO MONITOR IMPACT OF THE PROJECT AND ITS PAST TREND

1. Secondary Education - Enrollment, attendance & retention of students from 8th to 10th standard

2. Continuing Education - Enrollment & retention of students from 11th to 12 standards (or Equivalent courses)

- Learning Outcomes
 - Achievement of age-appropriate learning outcomes (As prescribed by DSERT - Department of State Educational Research and Training, Govt. of Karnataka)
 - Participation in district, state and national level competitions and events showcasing the talents of students in scholastic and co-scholastic areas
- Diversity of Career Choices - no of students pursuing diverse streams after 10th standard (including Vocational, Sports & Visual Arts)

LEARNING FROM CHALLENGES

- Our Vision of building a caring and equitable society free of deprivation and strife is an ongoing pursuit, at best led by our community partners through their earnest and meaningful participation. Towards fulfilling our goal of achieving 'community driven development', SVYM has invested itself into strengthening the capacity of the community to meet their basic human needs and in enhancing and sustaining the quality of their lives with self-directed and community driven efforts.
- We firmly believe community driven development is possible through the expansion of Human and Social Capital of the community members leading to positive economic consequences. Developing Human Capital through accessible health, education, skills etc. and developing Social Capital by creating social networks that facilitate collective action, cooperation & access to opportunities. Towards building Human & Social Capital of the communities, we have implemented 40+ Programs in Health, Education, Socio-economic Empowerment and Training & Research at different phases of engagement from - providing to provisioning to partnering.
- Our theory of change - from "providing to provisioning to partnering" is making us to be equal partners with the community that we serve and has led us to economic consequences that are not limited to monetary gains but commitment to the greater cause of humanity. Today we work in a 'partnering' mode where the community is actively involved in seeking development for itself, in sharing a common frame of reference, and this change of individuals is the key to sustainability.
- In achieving our goal of community led development in our areas of operation, we have reached distinct milestones, some of which are enlisted below. (We request you to refer to our Annual Reports for a complete and exhaustive documentation of the

impact of our 40+ programs.)

Fulfilling our goal of building human capabilities through health & wellbeing

- SVYM's Vivekananda Memorial Hospital - Rural hospital established in 1998.
- Fulfilling our goal of promoting health & well-being, preventing disease and restoring health through equitable & cost effective health and wellness services to rural and tribal populations in Saragur, H D Kote and neighbouring areas.
- 'Our rural hospital has an average annual footfall of 50,000 individuals. Throughout the COVID-19 pandemic, the hospital's Rural COVID Care Facility served 200+ mild to moderate COVID Positive Cases with accessible care, reducing the burden on urban health facilities already under stress. The organisation served several more through Home based COVID Care services in multiple locations.
- With 65% of health care cost contributed by the community and only 35% contributed by SVYM towards subsidized health care, Vivekananda Memorial Hospital is inculcating ownership and promoting a health seeking behaviour in the communities - as they are not consumers of the services offered, but customers who are paying for the services and in return demand quality, preserve their dignity and take responsibility of their own health and wellbeing.
- The rural hospital is transitioning from provisioning health care services to partnering for better rural health care in the area by training and employing locals, creating employment opportunities and collaborating with Govt. and local bodies to stay aligned and contextually relevant.

Fulfilling our goal of building human capital through accessible quality education

SVYM's education initiatives focus on enabling education systems in rural areas in Karnataka by complementing and supplementing the learning activities in Govt. Schools with technology, capacity building of rural Govt School Teachers, facilitating community participation in education of children, building infrastructure to provide equitable & accessible education facilities to indigenous tribal communities and promoting a scientific temper through mobile science programs and an innovative science exploratory park.

- SVYM's Education initiatives reach 50,000+ rural Govt Schools students annually. The program focuses on the education and career opportunities of students from economically challenged backgrounds with a focus on the girl child. SVYM's tribal school has been providing education to 600+ children from vulnerable tribal groups for over three decades.
- Viveka Tribal Centre for Learning - Residential Tribal School established in 1988
- Starting as a non-formal school in an empty cowshed, the tribal school has grown immensely to become a residential school educating 400+ children from seven indigenous tribal communities.
- From providing free education to the children initially, the school and the tribal communities have evolved together keeping the education of their children at the center, now SVYM is provisioning education services guided by active parental participation and meeting their demands of facilities for quality education for their children.
- Viveka School of Excellence - CBSE Board School established in 2002
- SVYM has achieved 100% partnership with the community for its CBSE-affiliated School, VSOE. After an initial investment made by SVYM, the entire operational expenditure is now met by the community towards educating 450+ students.

Fulfilling our goals in eradicating poverty through Socio-economic Empowerment

- Viveka Rural Livelihood Centre - Established in 2017
- Achieving our goal of empowering rural, tribal and vulnerable groups like PWDs by imparting knowledge and skills through our Viveka Rural Livelihood Centre.
- Women, youth and members of the rural and tribal communities take vocational training, agriculture based training and academic courses enabling them to learn locally and earn locally, reversing urban migration by creating livelihood opportunities locally.
- 5000+ Individuals from rural and tribal areas of H D Kote and neighbouring areas have taken training to become socio-economically empowered.
- 140 + Self Help Groups formed by SVYM in tribal communities have catalyzed economic growth through financial literacy, facilitating savings and credit and reducing poverty and social inequalities through collective action.

POSITIVE AND POTENTIAL UNINTENDED NEGATIVE OUTCOMES OF THE PROJECTS UNDERTAKEN BY THE ENTITY

Our programmatic approach has led to two kinds of positive outcomes:

One, that could be termed as a 'product' and counted on numbers to a large extent such as – our community centred, contextually

relevant and culturally appropriate sustainable practices, upholding of human rights such as that of the environmentally displaced communities, enhancement of socio-economic status of the rural and urban poor, and alleviation of poverty and equitable distribution in health care to name a few.

Our integrated Multi-Sectoral Programs have relieved household suffering, build resilient communities with health development and not disease control. They have strengthened societal progress as communities develop their capacity to meet their basic human needs, enhance and sustain the quality of their lives with self-directed and community-driven efforts. The child along with the family and the community is developed.

Two, - is a 'process' that we along with our partners are experiencing and that which is not confined to 'me' but everything for the good of the community. It is not about individuals limiting to satisfying their basic needs, accessing good nutrition, health care, water, sanitation and housing; but striving for personal and psychological safety and exercising one's personal rights and freedom.

Many of our stakeholders/ partners today live with a sense of purpose, they have committed themselves to the upliftment of the masses along with their own continuous journey of reflection and awareness of self. Building their human capital and social capital, people and communities participate and contribute in development activities. The communities own the program they are a part of and are also enabling us to adopt this sustainable practice of mutual trust and interdependence. Our theory of change - from "provisioning to partnering" is making us to be equal partners with the community that we serve and has led us to economic consequences that are not limited to monetary gains but commitment to the greater cause of humanity.

Some of them quantified includes -

- 60,000 tribal population catered with healthcare services every year
- Institutional delivery rate among tribal women in H D Kote was less than 10%, 3 decades ago now it was record 98%
- Uninterrupted doorstep delivery of essential health care services even during lockdown to the tribal and the rural community
- 90% TB Cure rate achieved in high risk tribal belts of H D Kote
- 99% ART adherence achieved in HIV positive pregnant women
- 3000 individuals reached through the Palliative Care program
- 37,000 specially abled benefitted and 20,00,000 population are sensitized

*Please refer organization Annual report

We have not faced any unintended outcome so far through any of the projects except that few challenges faced in the community & from the local government which have been resolved and has not posed as a barrier for project implementation.

Landslides & Floods caused in Kodagu & parts of Mysuru district (HD Kote) in 2019-20 had adverse impact as we couldn't execute some of the planned activities which was also appraised to the respective funding partners. But the rescue & rehabilitation support was extended by SVYM in its project areas to ensure the safety of the community partners.

During Covid 19 pandemic we faced similar challenge impacting the program/project output & outcomes. SVYM has responded to the community and was successfully mitigated the risk through some of its pragmatic approaches like –

Health sector –

- Rural Vivekananda Memorial Hospital – was designated as one of the Covid Care Center in the saragur taluk. Had established Covid Wards with isolation facility, delivered appropriate awareness to the community through its Community Radio station, Tele-medicine & tele- rehabilitation services provided.
- Awareness & Training on Covid Appropriate Behaviour for the frontline workers, Community
- Distribution of the PPE's for the frontline workers,
- Provide home based care for the infected individuals by providing food kits, Pulse oximeter, medicines, Concentrators & handbook to take care of themselves during the isolation.

Education Sector

- Provided Community Learning Centre's in the rural & urban area for the government school children to take up online classes & other learning opportunities by adopting Covid 19 guidelines after the 2nd phase of the lockdown
- Distribution of the workbook & tabs for children to enable learning at their residence.
- Online bridge courses for students pursuing Per University education & 10th class.

Socio Economic Empowerment Program

- Distribution of food kits & PPEs for individuals who were dependent on the daily wage among tribal & rural population
- Distribution of agri based products to continue their agriculture practices.
- Promote & encourage the community members especially women who were trained in the Viveka Rural Livelihood training to stitch cloth mask & distribute the same to the community.
- Community Radio Station – Janadhvani of SVYM was instrumental in playing a major role in binding the community & the government as many officials across various departments participate in live phone in sessions to educate & provide moral support to the community during the lockdown phases when there was restriction for human movement & world was in fear & strife. The tele medicine, tele counselling support extended 24/7 was of great enabler in keeping peace & resilience.
- HR management - Due to this challenge & the lockdown & shutting of schools many of the field-based project employees especially in education sector of SVYM did not have funding for disbursement of the salary. This was because the funding agency has stopped disbursement of the agreed funds as the regular planned activity in schools was stopped due to lockdown. This was a difficult phase for the organization as more than 300+ was among this sector. SVYM management took a decision not to layoff all these employees abruptly and requested its excising employees from other sectors to contribute their certain percentage of the salary so that the organization could accommodate to release salary for such employees during this difficult phase and also not to terminate abruptly.

IMPLEMENTATION PLAN AND THE MEASURES TAKEN FOR SUSTAINABILITY OF PROGRAMS

Implementation plan

- Considering the challenges of dropout rate among tribals there will be frequent home visits & admission drives planned from the school
- Parents of the students are counselled and involved in school activities to improve the retention of children
- Children are provided open classroom to create conducive learning environment
- Students who are good at sports & other art forms are encouraged to take up to next level by coaching & exposure to such platforms.
- Special academic coaching is also provided to complete their education & also continue education.
- Students from class 6 to 10th are engaged in Introduction to Basic Technology (IBT) sessions along with the Tailoring unit provide an exposure to various skill-based professions (including education) and also enable the students to perform basic tasks at the household.

The students also take-up community projects in the nearby tribal villages thereby bridging the gap between the textbook and the community needs. Several of the alumni are now working in industries in cities or are self-employed.

Sustainability plan

- In terms of sustaining the impact & improving the quality – school has invested in the continuous capacity building of teaching and non-teaching staffs. School is also in alignment with 14 recommendations of National Education policy.
- The school started with 28 children & in the year 2023-24 student strength has grown to 562 because of the quality education. Being a spring board for tribals aspirations, school has always lookout for new & innovative ideas.
- The school was started in 1989. The school has received support from governments and the community. The community has now developed a sense of ownership.
 - Supporting children to continue education is also a sustainable factor.
 - These children are also role models for the younger generation from the tribal community

SOLUTION TO SUSTAINABLE DEVELOPMENT GOALS (SDGS) AND NATIONAL PRIORITIES/STATE PRIORITIES/ DEVELOPMENTAL PRIORITIES OF THE ENTITY

The proposed program of Tribal education that ensures inclusive and equitable quality education and promote lifelong learning opportunities for all.

With the pragmatic & holistic approach of healthcare services our work primarily aligns with SDG 3- Good Health and Well-being- all health initiatives help in restoring health status. Along with this our initiative also focuses on key determinants of health which aligns with

SDG1- No poverty- skill training provides employment - step towards removing poverty

SDG-2- Zero Hunger-Improvement in income status, provision of food in schools & hospital - access to nutritious food.

SDG4- Quality Education- access to quality & equitable education for all in remote areas

SDG 6- WASH programs towards clean water and Sanitation

SD7 -Affordable and Clean Energy- Solar electrification of villages.

SDG 8 -Decent Work and Economic Growth-appropriate skill training - access to decent work - promote economic growth.

SDG 10 – Reduced Inequalities- providing appropriate health care, skill training and creating an inclusive environment all around including PWDs - towards reducing inequalities.

SDG 17: Collaboration with government, corporates - towards community development, Strengthen global partnership for sustainable development

This education initiative – Viveka Tribal Centre for Learning (VTCL) focusing on tribal education along with the below Sustainable Development Goals -

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture

The project approach also aligns with the national priorities/state priorities/ developmental priorities under the schemes of –

- Targeted Public Distribution System (TPDS)
- National Nutrition Mission (NNM) (Core)
- National Food Security Act (NFSA), passed in 2013
- Mid-Day Meal Scheme
- Padhe Bharat Badhe Bharat.
- Sarva Shisha Abhiyan
- Samagra Shikshana Karnataka
- National Education Policy

STAKEHOLDER FEEDBACK OR BENEFICIARY/STAKEHOLDER VALIDATION

SVYM treats all its stakeholders as equal partners for causing the development. We do consider CSR funding organizations, target community, local government as partners and encourage them to be part of the project with regular visits & also provision for volunteering opportunities. The development challenges in the social sector are considered based on the genuine needs of the community. The problems inhibiting the wellbeing of the communities are identified and pragmatic solutions which are contextually relevant are designed as solutions to address the development issues. All the activities we are implementing are also considered under 14+ Sustainable Development Goals of UN & SVYM with its expertise focuses on addressing the problem of the society by localization of SDGs by further breaking them down which helps us to understand the problem in the community. Based on the specific community and the geographic challenge the solutions may vary which are finalized based on the target community & location.

Based on the organizations expertise in the project implemented regular monitoring is planned & conducted at various management level of the organization. To uphold the transparency of the organization and its activities apart from the internal project team quarterly monitoring is conducted on activities for planned & achieved through the Chief Executive Officer & also the organization has internal Auditing team visiting all the projects on quarterly basis. There is always a scope for external evaluation as per the norms set by CSR partners.

Some of the impediments could be the behaviors & the attitude in the community which plays a vital role in anchoring the development projects. To experience or achieve certain outcomes in certain projects which depends largely on the Human behavior it becomes difficult to commit on causing outcome or impact in less than a year. So sometimes the demands of the outcome & the impact with a shortcut is not possible or it won't sustain in longer run. Building human capabilities & encouraging community ownership & timely monitoring will help in establishing meaningful development models.

The external evaluation is also made available for the public by uploading them on the website of SVYM.

These people are not assigned to any particular department as they are open for all kind of volunteer work

ROLES & RESPONSIBILITIES OF STAFF AND VOLUNTEER

Based on the input and approval from the department Head the Offer Letter will be issued to the recruited employee & or Volunteer by Human Resource Department. The HR Department along with the appointing authority will approve the salary & fitment based on the roles & responsibility & the budget allotted for the respective role, keeping in mind internal equity and compensation and the philosophy of the Organization. The department head should ensure that no commitments are made outside the existing Compensation & Benefit structure of the organization. Before finalizing the salary, Human Resources Dept. must see current salary

slip and pay structure break-up evidence in case of experienced.

Issuance of Appointment Letter: An appointment letter will be prepared and e-offer along with terms of reference (contract letter) will be shared before joining and issued to the selected candidate at the date of joining. The terms and conditions of appointment would be explained by Human resource Department who would also resolve any doubts the candidate may have.

The performance is done annually considering the performance of the employee for the entire year. Performance Management System (PMS) module of Human Resource Management System (HRMS) will be used for carrying out this process. The entire process is automated & is basically divided into 4 stages-

- Key Result Area (KRA) submission will be done by Appraisee (Employee)
- Key Result Area (KRA) approval to be done by Appraiser (Immediate Reporting Manager)
- Self-appraisal for submission (by Appraisee)
- Appraisal form approval (by Appraiser)
- The Performance appraisal of each staff is deemed to be complete only when all 4 stages have been completed.

RESPONSIBILITIES

The performance appraisal policy provides certain responsibilities to the individual employees and their respective managers to execute the performance review process.

KRAs & KPIs will be formulated at the beginning of the financial year. The Appraisal year will be from April to March. The organisation will schedule the performance appraisal twice a year. The month of September and March will be considered as appraisal months. The specific date of submission of KRAs & self-appraisal forms and their approval will be informed by the HR team.

The grading for performance appraisal system is done on overall performance score. The performance score for KPIs will be calculated against the ideal points given to the employee once the set objective is achieved. Other important scores which are considered for appraisal are Competencies score and Self-development. The existing competency page is basic and the HR department is currently working on a comprehensive Competency Frame-work for the organisation.

Overall performance assessment score is the combination of KPI performance score, Competencies score and Self-development score, with due weightage in-built for each in the PMS module.

KEY INDUSTRIAL REGULATION AND POLICIES IN INDIA

The following description is an indicative summary of certain sector-specific laws currently in force in India, which are applicable to our Society. The information detailed in this chapter has been obtained from publications available in the public domain. The description below may not be exhaustive, and is only intended to provide general information to investors, and is neither designed as, nor intended to substitute, professional legal advice. Judicial and administrative interpretations are subject to modification or clarification by subsequent legislative, judicial or administrative decisions. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain.

Our Society may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For information on regulatory approvals obtained by us, please refer “Government and Other Approvals” on page 228. We are required to obtain and regularly renew certain licenses / registrations / sanctions / permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye laws, acts and policies. Additionally, the projects undertaken by us require, at various stages, the sanction of the concerned authorities under the relevant central and state legislations and local byelaws.

INDUSTRY-SPECIFIC REGULATIONS & POLICIES

EDUCATION RELATED LAW

Right to Education Act (‘RTE’) 2009, as amended:

The Constitution (Eighty-sixth Amendment) Act, 2002 inserted Article 21-A in the Constitution of India to provide free and compulsory education of all children in the age group of six to fourteen years as a Fundamental Right in such a manner as the State may, by law, determine. The Right of Children to Free and Compulsory Education (‘RTE’) Act, 2009, which represents the consequential legislation envisaged under Article 21-A, means that every child has a right to full time elementary education of satisfactory and equitable quality in a formal school which satisfies certain essential norms and standards.

National Education Policy (‘NEP’) 2020, as amended:

National Education Policy, 2020 (‘NEP’) envisions a massive transformation in education through– “an education system rooted in Indian ethos that contributes directly to transforming India, that is Bharat, sustainably into an equitable and vibrant knowledge society, by providing high quality education to all, thereby making India a global knowledge superpower. “The Policy aims and aspires to universalize the pre-primary education and provides special emphasis on the attainment of foundational literacy/numeracy in primary school and beyond for all by 2025. This policy envisages that the extant 10+2 structure in school education will be modified with a new pedagogical and curricular restructuring of 5+3+3+4 covering ages 3-18. In the new 5+3+3+4 structure, a strong base of Early Childhood Care and Education (ECCE) from age 3 is also included, which is aimed at promoting better overall learning, development, and well-being.

Bye-Laws for getting Schools affiliated with the Central Board of Secondary Education and Council for the Indian School Certificate Examinations

The Council for the Indian School Certificate Examinations and the Council for the Central Board of Secondary Education has laid down guidelines that need to be complied with by schools for affiliation purposes. A synopsis of these guidelines laid down by both the boards is as follows:

Central Board of Secondary Education Affiliation

The Central Board of Secondary Education (“CBSE Board”) requirements for affiliation are prescribed under the Central Board of Secondary Education Affiliation Bye-laws (“CBSE Bye-laws”). Applications for affiliation under the bye-laws can be considered if approval is required for any of the following categories of cases:

- (i) Approval of middle-class syllabus;
- (ii) Provisional affiliation of a secondary school;
- (iii) Upgradation/provisional affiliation of a senior secondary school;
- (iv) Regular affiliation for schools run by the Government, Government aided Kendriya Vidyalaya Sangathan, Navodaya Vidyalaya Samiti, Central Tibetan Schools Organization (CTSO); and
- (v) Permanent affiliation.

The CBSE bye-laws mandate that the following conditions need to be complied with if affiliation is required for schools with the CBSE Board:

- The school must have prior affiliation or formal recognition from the State or Union Territory Government;
- A no objection certificate should be obtained from the State Government for affiliation of the school with the CBSE Board;
- The school must have at least 2 acres of land (out of which at least one acre should be through ownership or through a lease in favour of the school for thirty years) and a building constructed on a part of land and proper playgrounds on the remaining land;

- in metropolitan cities with a population exceeding 2.5 million, the land should not be less than one acre with adequate building and arrangement for imparting physical and health education facilities for conducting games to the satisfaction of the CBSE Board;
- the trust or the society or the section 25 company registered under the Companies Act, 1956 and corresponding section 8 of the Companies Act, 2013 should be on a non-proprietary character and should run the school on a not-for-profit basis; and
- Schools managed directly by Public Sector Undertaking (“PSU”) or by reputed societies under financial control of these PSUs may apply for permanent affiliation and all other schools get a provisional affiliation. If a school wishes to get permanently affiliated with the CBSE Board, then after the expiry of the provisional affiliated period of three years, it may ask the Board to grant it permanent affiliation on the basis of the fulfilment of certain conditions which may be laid down by the CBSE Board.

Sainik School

Sainik Schools Society (SSS) is an autonomous organisation under the Ministry of Defence, Govt of India. The Society runs Sainik Schools. Sainik Schools are English medium residential schools affiliated to Central Board of Secondary Education (CBSE). Sainik Schools prepare Cadets to join the National Defence Academy (NDA), Khadakwasla (Pune), Indian Naval Academy, Ezhimala and other Training Academies for officers. At present there are a total of 33 Sainik Schools across the country. Admission is based on the performance of candidates in the All-India Sainik Schools Entrance Examination (AISSEE). Ministry of Defence (MoD) has approved 18 New Sainik Schools, which operate in partnership with NGOs/private schools/State Governments. These approved New Sainik Schools function under the aegis of Sainik Schools Society. These approved New Sainik Schools offer admission to the Sainik School stream of Class VI, through AISSEE 2023.

LAWS GOVERNING PROFESSIONAL TRAINING AND RESEARCH:

Ethical Guidelines for Biomedical Research on Human Participants, 2006 (“ICMR Code”)

The ICMR Code sets out various ethical considerations and standards that have to be complied with while handling cases where human beings are involved as biomedical research participants. The ICMR Code inter alia, mandates that any research using human participants follow the principles of essentiality, voluntariness, informed consent, community agreement, nonexploitation, privacy, confidentiality, professional competence, and transparency. The ICMR Code accords prime importance to the dignity and well-being of research participants, and requires that all stages of research involving human participants be subject to strict evaluation by a duly constituted ethics committee.

The Foreign Contribution (Regulation) Act, 2010, as amended:

The Foreign Contribution (Regulation) Act, 2010 (‘FCRA’) in India is a regulatory framework designed to oversee the acceptance and utilization of foreign contributions by individuals, associations, and entities. Under the FCRA, registration is mandatory for those receiving foreign funds, and specific guidelines govern the usage of such contributions to ensure national security and public interest. The act establishes mechanisms for reporting and accountability, with registered entities required to maintain a designated bank account for foreign contributions. Violation of FCRA provisions may result in penalties, emphasizing the importance of compliance and transparency in managing foreign funds for social, cultural, economic, educational, or religious activities. It serves as a crucial tool to safeguard national interests while allowing legitimate foreign contributions for developmental purposes.

Food Safety and Standards Act, 2006 (“FSSA”) and regulations framed thereunder

The FSSA is an integrated food law that lays down standards and guidelines for consumer safety, protection of consumer health and regulation of the food sector. It consolidates the laws relating to food and provides for establishment of the Food Safety and Standards Authority of India (“FSSAI”). The FSSAI is responsible for laying down science-based standards for articles of food and to regulate their manufacture, packaging, storage, distribution, sale, and import, to ensure availability of safe and wholesome food for human consumption and for matters connected therewith or incidental thereto.

National Policy on Skill Development and Entrepreneurship, 2015

It is an integral part of the government policy on "Sabka Saath, Sabka Vikaas" and its commitment to overall human resource development to take advantage of the demographic profile of our country's population in the coming years. Developing a comprehensive and holistic policy document is an integral part of the process. This requires a fresh look at the already existing National Policy on Skill Development (NPSD), 2009. The objective of the National Policy on Skill Development and Entrepreneurship, 2015 will be to meet the challenge of skilling at scale with speed and standard (quality). It will aim to provide an umbrella framework to all skilling activities being carried out within the country, to align them to common standards and link the skilling with demand centers. In addition to laying down the objectives and expected outcomes, the effort will also be to identify the various institutional frameworks which can act as the vehicle to reach the expected outcomes. The national policy will also provide clarity and coherence on how skill development efforts across the country can be aligned within the existing institutional arrangements. This policy will link skills development to improved employability and productivity.

GENERAL LAW

Indian Contract Act, 1872, as amended:

Indian Contract Act governs the conditions for validity of contracts formed through electronic means; communication and acceptance of proposals; competency of people to contract, additionally, revocation, and contract formation between consumers, sellers, and intermediaries. The terms of service, privacy policy, and return policies of any online platform are legally binding agreements and often governed by provisions of the Indian Contract Act, 1872. However, the law is not updated yet to deal with electronic contracts, where there is absence of online signatures.

The Income Tax Act, 1961, as amended:

The government of India imposes an income tax on taxable income of all persons including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Indian Income Tax Act, 1961. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, GoI.

Further, under Section 12A of the Income Tax Act, 1961, non-profit organisations like charitable trusts, welfare societies, NGOs, religious institutions, Section – Companies etc. are entitled to tax exemptions. This tax relief was introduced, keeping in consideration that non-profit entities work for social welfare and not for generating profit. Owing to their selfless contribution towards the society, they are exempted from taxes that come under the purview of Section 11 and Section 12 of the Income Tax Act, 1961. Nevertheless, to claim such tax benefits individuals need to get registered as per the norms of Section 12A of the Income Tax Act, 1961.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, as amended:

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“POSH Act”) provides for the protection of women and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behavior namely, physical contact and advances or a demand or request for sexual favor or making sexually colored remarks, showing pornography or any other unwelcome physical, verbal or nonverbal conduct of sexual nature. The POSH Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e., a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the POSH Act shall be punishable with a fine extending to Rs. 50,000.

EMPLOYEE RELATED LAW

Employees' Provident Fund and Miscellaneous Provisions Act, 1952, as amended (the 'EPF Act')

The EPF Act is applicable to an establishment employing more than 20 employees and as notified by the government from time to time. All the establishments under the EPF Act are required to be registered with the appropriate Provident Fund Commissioner. In accordance with the provisions of the EPF Act, the employers are required to contribute to the Employees' Provident Fund the prescribed percentage of the basic wages, dearness allowances and remaining allowance (if any) payable to the employees. The employees shall also be required to make an equal contribution to the fund. The Central Government under Section 5 of the EPF Act framed the Employees Provident Scheme, 1952.

Employees' State Insurance Act, 1948, as amended (the 'ESIC Act')

The ESIC Act, is a significant social security legislation in India designed to provide health and medical benefits to employees. Applicable to establishments with a specified number of employees, the Act mandates the creation of a fund called the Employees' State Insurance (ESI) Fund. Both employers and employees contribute to this fund, and in return, employees become eligible for various benefits, including medical care, maternity benefits, disability benefits, and sickness benefits. The Act is overseen by the Employees' State Insurance Corporation (ESIC), a statutory body under the Ministry of Labour and Employment, Government of India. The primary objective is to ensure that employees have access to adequate healthcare facilities, reducing the financial burden of medical expenses. Compliance with the Employees' State Insurance Act is essential for employers, as non-compliance can lead to penalties and legal consequences.

Payment of Gratuity Act, 1972, as amended (the "Gratuity Act")

The Gratuity Act applies, *inter alia* to every shop or establishment within the meaning of any law for the time being in force in relation to shops and establishments in a state, in which ten or more persons are employed, or were employed, on any day of the preceding twelve months. The Gratuity Act may also apply in case of such other establishments or class of establishments, in which ten or more employees are employed, on any day of the preceding twelve months, as the Central Government may notify. A shop or establishment to which the Gratuity Act becomes applicable shall be continued to be governed by it irrespective of the number of persons employed in such shop or establishment falling below ten at any time thereafter. The Gratuity Act provides for gratuity to be payable to an employee on termination of his/her employment after he/she has rendered continuous service of not less than five years on superannuation or his retirement or resignation or death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service.

ENVIRONMENT RELATED LAW

We are subject to various environment regulations as the operation of our establishments might have an impact on the environment in which they are situated. The basic purpose of the statutes given below is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards (“PCBs”), which are vested with diverse powers to deal with water and air pollution, have been set up in each state. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking inspection to ensure that industries are functioning in compliance with the standards prescribed. These authorities also have the power of search, seizure and investigation. All industries are required to obtain consent orders from the National PCBs or State PCBs, which are indicative of the fact that the industry in question is functioning in compliance with the pollution control norms. These consent orders are required to be kept renewed.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State Pollution Control Board (“State PCB”). The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act requires that any individual, industry or institution responsible for emitting smoke or gases by way of use of fuel or chemical reactions must apply in a prescribed form and obtain consent from the State PCB prior to commencing any activity. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four months after the receipt of the application or consent the State PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent. The Air Act prescribes penalties for contravention in terms of fine, imprisonment or both.

Solid Waste Management Rules, 2016

All restaurants are required to ensure segregation of waste at source, facilitate collection of segregated waste in separate streams, handover recyclable material to either the authorized waste pickers or the authorized recyclers, in partnership with the local body. The bio-degradable waste shall be processed, treated and disposed off through composting or bio-methanation within the premises as far as possible. The residual waste shall be given to the waste collectors or agency as directed by the local body.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Wastes Rules”)

The Hazardous Wastes Rules have been enacted to ensure resource recovery and disposal of hazardous wastes, as defined under the Hazardous Wastes Rules in an environmentally sound manner. The Hazardous Wastes Rules apply to all persons who handle, generate, collect, store, pack, transport, use, treat, process, recycle, recover, pre-process, co-process, utilise, offer for sale, transfer, or dispose hazardous and other wastes. In accordance with the provisions of the Hazardous Wastes Rules, every person undertaking any of the aforementioned activities with hazardous, and other wastes, is required to obtain an authorisation for undertaking such activities. Further, an occupier is inter alia, under an obligation to ensure the safe and environmentally sound management of hazardous and other wastes. It may be noted that wastes defined under the Hazardous Wastes Rules are to be disposed only in a facility, duly authorised under the provisions of the Hazardous Wastes Rules.

Public Liability Insurance Act, 1991 (“Public Liability Act”)

The Public Liability Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification dated March 24, 1992. The owner or handler is also required to take out one or more insurance policies insuring against liability under the legislation and renew the same periodically. The Public Liability Act also provides for the establishment of the Environmental Relief Fund, which shall be utilised towards payment of relief granted under the Public Liability Act and a violation of the provisions of the Public Liability Act is punishable with fine or imprisonment or both. The rules made under the Public Liability Act mandate that the employer has to contribute towards the Environment Relief Fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

HISTORY AND MAIN OBJECTS

SOCIETY'S BACKGROUND

Our Society 'Swami Vivekananda Youth Movement' was registered under the Karnataka Societies Registration Act, 1960 (Karnataka Act No. 17 of 1960), limited on December 1, 1984, pursuant to a certificate of registration issued by the Registrar of Societies, Karnataka.

The inception of our society was rooted in the inspiration drawn from the ideals of 'Swami Vivekananda' Dr. R Balasubramaniam along with a small group of like-minded medical students at the Mysore Medical College, Mysuru in the southern part of Karnataka, in India set up Swami Vivekananda Youth Movement in 1984. The group felt that the career in medicine they dreamt of pursuing was very different from the practice of medicine around them. The belief they had in them was to make a difference and make a positive impact on the lives of the poor and the marginalized.

Their initial asset in the inception phase of the organisation was high ideals and all the positive benefits of inexperience. And, with a missionary zeal they started offering free medicines, blood, consultations and counselling to the poor patients and weekly clinics in the tribal and rural areas. In 1987, they started serving one of the most backward belts of Karnataka, Heggadadevanakote (HD Kote) Taluk of Mysore district, populated by displaced and dispossessed communities of indigenous tribes and gradually expanded their geographical base in several districts in the state of Karnataka.

Today, affirming to their vision of 'a caring and equitable society, free of deprivation and strife' the small group has grown into an organisation that is continuously developing local, innovative and cost-effective solutions to sustain community driven progress for the past 39 years with 7 institutions, more than 40+ multi-sectoral projects impacting 3 million people.

SECTION VI – FINANCIAL INFORMATION
FINANCIAL STATEMENTS

(The remainder of this page has been intentionally left blank)

INDEPENDENT AUDITOR'S REPORT

To,
The Members of Governing Body of
M/s. Swami Vivekananda Youth Movement

1. Opinion

We have audited the Financial Statements of **M/s. Swami Vivekananda Youth Movement**, which comprise the Balance Sheet as at 31st March, 2023, the Statement of Income & Expenditure for the year then ended, the Receipts and Payments Account for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (a) In the case of the Balance Sheet, of the state of affairs of the Institution as at 31st March 2023;
- (b) In the case of the Statement of Income & Expenditure, of the Excess of Expenditure over Income for the year ended on that date; and
- (c) In the case of Receipts and Payment Accounts, of the cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and the results of operations of the entity in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

- In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.
- Those charged with governance are responsible for overseeing the entity's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- i. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis

for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- iii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- iv. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

1.1.6 SUPPORT SERVICES

Support Services are a set of auxiliary services provided at the campuses of the Organization. These services include maintenance of fixed assets, facility management, transport, central material store, agricultural, office services & canteen.

1.2 BASIS OF PRESENTATION

Organization presents its accounts in accordance with the Fund Based Accounting System. All the figures reported in Financial Statements are in Indian Rupee. 'Generally Accepted Accounting Principles (GAAP)' applicable in India are followed. Accounts have been prepared on going concern basis under historical cost convention. Organization follows accrual system of accounting unless stated otherwise. The preparation of financial statements requires Organization to make estimates and assumptions that affect the figures reported in Balance Sheet and Income & Expenditure Account. The actual results could differ from these estimates.

1.3 PRINCIPLES OF CONSOLIDATION

The consolidated financial statements of the Organization include accounts of foreign contribution and contributions under Section 80G of Income Tax Act, 1961.

1.4 FUND ACCOUNTING

Organization has followed the principle of having separate funds for each of the Program Focus Areas. Funds available under each Program Focus Area are classified into three categories pursuant to donor-imposed restrictions, Organizational policies & applicable law — Restricted Funds, Designated Funds & Unrestricted Fund.

1.4.1 Restricted Funds

Restricted funds are funds whose use has been limited by donors or applicable law to a specific time period and/or for a specific purpose. As & when the restrictions are satisfied, funds to that extent are transferred to Income & Expenditure Account in case of revenue expenditure and Asset Fund in case of capital expenditure.

- a) Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.
- b) Staff Benefit Funds are funds set aside as per applicable law and Organization's policy, to provide for retirement benefits and other welfare measures to the employees of the Organization.
 - i) Defined Contribution Plans: - Provident Fund Organization has defined contribution plans for post-employment benefits in the form of Provident Fund for all the employees which is administered by Regional Provident Fund Commissioner. Contribution to Provident Fund is charged to Income and Expenditure account. Organization has no obligation (both formal and informal) over and above the contribution made to the fund.
 - ii) Defined Benefit Plan: - Gratuity Fund, The Organization provides for gratuity, a defined benefit plan covering all eligible employees. The plan provides lump sum payment to eligible employees at retirement or termination of employment based on the salary of respective employee and years of employment with the Organization. The Organization invests the Gratuity Fund contribution in approved Bonds and term deposits. The amount of contribution is determined based upon actuarial valuation at the balance sheet date, carried out by an independent actuary. This contribution is charged off to the Income and Expenditure account. Projected Unit Credit Method is used for valuation of gratuity for actuarial valuation
 - iii) Leave Encashment fund represents the accrued liability provided in accordance with the Organization's policy.
- c) Earmarked Funds are expendable funds, uses of which are specified by the donors or applicable law.
- d) Asset Fund - (Created out of Specified Contribution and Loan Funds) Asset Funds represent non-expendable funds invested in fixed assets (Net Block) for use by Organization's activities and it is not available for any other purpose. Funds utilized for capital expenditure are transferred from their sources (source may be of specified contribution, general contribution) to Asset fund at the time of capitalization. In case of assets financed by loan funds an amount equal to the actual loan repaid during the year is transferred to the Asset fund. Annually, the amount equal to the reduction in gross block of fixed assets on account of depreciation is transferred from Asset fund to Income and expenditure account.

1.4.2 Designated Funds

These are unrestricted funds set aside by the Governing Body for specific purposes and to meet future needs of the present commitments.

- a) Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.
- b) Earmarked Funds are expendable funds as per the purpose specified by the Governing body.
- c) Asset Replacement Fund is an expendable fund used for the major repairs & replacement of the fixed assets. When an asset is sold, retired or transferred, the equivalent amount is transferred from Asset fund to this fund. The rent collected from the facilities owned by the Organization is credited to this fund.
- d) General Operating Fund is used to meet the working capital needs of the Organization. This fund is also used to meet the expenses incurred during the time gap between commencement of an externally funded project and actual receipt of funds; on reimbursable basis.
- e) Revolving Fund it is a revolving fund which is used to meet seed money/ initial deposit / working capital for entrepreneurial initiatives identified through structured selection process as detailed in the fund guidelines.
- f) Staff support fund - Organization has set aside Staff Support Fund for the welfare of the employees including but not restricted to Health Insurance & other staff benefits

1.4.3 Unrestricted Fund

a) General Fund: These are unconditional expendable funds available for use at the discretion of Governing Body for furtherance of Organization's objectives. These funds are neither restricted by donor nor designated for specific purpose by the Governing Body. All unrestricted unutilized donations are credited to General Fund. Surplus or deficit arising out of the operations in each of the Program Focus Areas is adjusted against their respective general fund. It is assumed that at times fluctuations will occur in projected income and expenditure; which cannot be fully anticipated during the planning process. In the light of such circumstances, it is the policy of the Organization to maintain a prudent level of General Fund to provide stability and flexibility.

1.5 ACCOUNTING OF INCOME AND EXPENDITURE

1.5.1 Revenue Recognition

- a) All the incomes are recognized when Organization is legally entitled to collect it and amount can be quantified with reasonable accuracy, on an accrual basis.
- b) Interest on deployment of funds is recognized using the time proportion method, based on the underlying interest rates.
- c) Revenue from training is recognized on rendering of service or completion of training.
- d) Membership fees from members are accounted on actual receipt basis. Life membership fee is treated as a designated endowment fund.

1.5.2 General Contribution includes unspecified donations received in cash or kind.

1.5.3 Earmarked Funds received towards recurrent expenditure are credited to specific income accounts to the extent restrictions are satisfied.

1.5.4 Income from activities includes user charges, training & consultancy fees for the services rendered.

1.5.5 Net Movement in Funds represents the surplus/deficit arising from operations under each of the Program Focus Area during the year and is adjusted against the respective fund balances.

1.6 FIXED ASSETS

Fixed Assets are shown at cost and donations in kind are capitalized at nominal value. Maintenance, repairs and investment in minor asset are charged off to Statement of Income & Expenditure. That expenditure which will materially increase the value of the asset or extend its useful life is capitalized. The assets which have fulfilled their useful life are retired at the book value and is charged to Statement of Income & Expenditure. Amounts realized on sale of assets to the extent of net book value are credited to the asset account. Profit or loss resultant to the sale is charged to the Statement of Income and Expenditure.

1. Opinion

We have audited the Financial Statements of **M/s. Swami Vivekananda Youth Movement**, which comprise the Balance Sheet as at 31st March, 2022, the Statement of Income & Expenditure for the year then ended, the Receipts and Payments Account for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- (d) In the case of the Balance Sheet, of the state of affairs of the Institution as at 31st March 2022;
- (e) In the case of the Statement of Income & Expenditure, of the Excess of Expenditure over Income for the year ended on that date; and
- (f) In the case of Receipts and Payment Accounts, of the cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and the results of operations of the entity in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

- In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.
- Those charged with governance are responsible for overseeing the entity's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a

basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

1.6 SUPPORT SERVICES

Support Services are a set of auxiliary services provided at the campuses of the Organization. These services include maintenance of fixed assets, facility management, transport, central material store, agricultural, office services & canteen.

2. BASIS OF PRESENTATION

Organization presents its accounts in accordance with the Fund Based Accounting System. All the figures reported in Financial Statements are in Indian Rupee. 'Generally Accepted Accounting Principles (GAAP)' applicable in India are followed. Accounts have been prepared on going concern basis under historical cost convention. Organization follows accrual system of accounting unless stated otherwise. The preparation of financial statements requires Organization to make estimates and assumptions that affect the figures reported in Balance Sheet and Income & Expenditure Account. The actual results could differ from these estimates.

3. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements of the Organization include accounts of foreign contribution and contributions under Section 80G of Income Tax Act, 1961.

4. FUND ACCOUNTING

Organization has followed the principle of having separate funds for each of the Program Focus Areas. Funds available under each Program Focus Area are classified into three categories pursuant to donor-imposed restrictions, Organizational policies & applicable law — Restricted Funds, Designated Funds & Unrestricted Fund.

4.1 Restricted Funds

Restricted funds are funds whose use has been limited by donors or applicable law to a specific time period and/or for a specific purpose. As & when the restrictions are satisfied, funds to that extent are transferred to Income & Expenditure Account in case of revenue expenditure and Asset Fund in case of capital expenditure.

4.1.1. Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.

4.1.2. Staff Benefit Funds are funds set aside as per applicable law and Organization's policy, to provide for retirement benefits and other welfare measures to the employees of the Organization.

4.1.2.1. Defined Contribution Plans: - Provident Fund Organization has defined contribution plans for post-employment benefits in the form of Provident Fund for all the employees which is administered by Regional Provident Fund Commissioner. Contribution to Provident Fund is charged to Income and Expenditure account. Organization has no obligation (both formal and informal) over and above the contribution made to the fund.

4.1.2.2. Defined Benefit Plan: - Gratuity Fund, The Organization provides for gratuity, a defined benefit plan covering all eligible employees. The plan provides lump sum payment to eligible employees at retirement or termination of employment based on the salary of respective employee and years of employment with the Organization. The Organization invests the Gratuity Fund contribution in approved Bonds and term deposits. The amount of contribution is determined based upon actuarial valuation at the balance sheet date, carried out by an independent actuary. This contribution is charged off to the Income and Expenditure account. Projected Unit Credit Method is used for valuation of gratuity for actuarial valuation

4.1.2.3. Leave Encashment fund represents the accrued liability provided in accordance with the Organization's policy.

4.1.3. Earmarked Funds are expendable funds, uses of which are specified by the donors or applicable law.

4.1.4 Asset Fund - (Created out of Specified Contribution and Loan Funds) Asset Funds represent non-expendable funds invested in fixed assets (Net Block) for use by Organization's activities and it is not available for any other purpose. Funds utilized for capital expenditure are transferred from their sources (source may be of specified contribution, general contribution) to Asset fund at the time of capitalization. In case of assets financed by loan funds an amount equal to the actual loan repaid during the year is transferred to the Asset fund. Annually, the amount equal to the reduction in gross block of fixed assets on account of depreciation is transferred from Asset fund to Income and expenditure account.

4.2 Designated Funds

These are unrestricted funds set aside by the Governing Body for specific purposes and to meet future needs of the present commitments.

4.2.1. Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.

4.2.2. Earmarked Funds are expendable funds as per the purpose specified by the Governing body.

4.2.3. Asset Replacement Fund is an expendable fund used for the major repairs & replacement of the fixed assets. When an asset is sold, retired or transferred, the equivalent amount is transferred from Asset fund to this fund. The rent collected from the facilities owned by the Organization is credited to this fund.

4.2.4. General Operating Fund is used to meet the working capital needs of the Organization. This fund is also used to meet the expenses incurred during the time gap between commencement of an externally funded project and actual receipt of funds; on reimbursable basis.

4.2.5. Revolving Fund it is a revolving fund which is used to meet seed money/ initial deposit / working capital for entrepreneurial initiatives identified through structured selection process as detailed in the fund guidelines.

4.3 Unrestricted Fund

4.3.1 General Fund: These are unconditional expendable funds available for use at the discretion of Governing Body for furtherance of Organization's objectives. These funds are neither restricted by donor nor designated for specific purpose by the Governing Body. All unrestricted unutilized donations are credited to General Fund. Surplus or deficit arising out of the operations in each of the Program Focus Areas is adjusted against their respective general fund. It is assumed that at times fluctuations will occur in projected income and expenditure; which cannot be fully anticipated during the planning process. In the light of such circumstances, it is the policy of the Organization to maintain a prudent level of General Fund to provide stability and flexibility.

5 ACCOUNTING OF INCOME AND EXPENDITURE

- **Revenue Recognition**

- All the incomes are recognized when Organization is legally entitled to collect it and amount can be quantified with reasonable accuracy, on an accrual basis.
- Interest on deployment of funds is recognized using the time proportion method, based on the underlying interest rates.
- Revenue from training is recognized on rendering of service or completion of training.
- Membership fees from members are accounted on actual receipt basis. Life membership fee is treated as a designated endowment fund.

- **General Contribution** includes unspecified donations received in cash or kind.

- **Earmarked Funds** received towards recurrent expenditure are credited to specific income accounts to the extent restrictions are satisfied.

- **Income from activities** includes user charges, training & consultancy fees for the services rendered.

- **Net Movement in Funds** represents the surplus/deficit arising from operations under each of the Program Focus Area during the year and is adjusted against the respective fund balances.

6 FIXED ASSETS

Fixed Assets are shown at cost and donations in kind are capitalized at nominal value. Maintenance, repairs and investment in minor asset are charged off to Statement of Income & Expenditure. That expenditure which will materially increase the value of the asset or extend its useful life is capitalized. The assets which have fulfilled their useful life are retired at the book value and is charged to Statement of Income & Expenditure. Amounts realized on sale of assets to the extent of net book value are credited to the asset account. Profit or loss resultant to the sale is charged to the Statement of Income and Expenditure.

7 DEPRECIATION

8 INVENTORY

Medicines, reagents, groceries, stationeries & consumables have been valued at cost or net realizable value whichever is lower. The cost is determined based on the First —in-First-out (FIFO) method of valuation.

9 FOREIGN EXCHANGE TRANSACTIONS

Transactions denominated in foreign currency are converted to Indian rupees and recorded as per the exchange rates prevalent on the date of transaction.

10 INVESTMENTS

Investments are made in accordance with provisions under Section 11 of Income tax Act, 1961, Investments of all the funds are pooled together. Each participating fund enters & withdraws from the pool based on fund movement. Investments are stated at cost with accrued interest.

11 BORROWING COST

Borrowing cost that is specifically attributable to the acquisition, construction or production of qualifying assets is capitalized as part of the cost of such asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are recognized as an expense in the period in which they are incurred.

12 ACCOUNTING OF LEASE

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership over the lease term are classified as operating lease. Operating lease payments are recognized as expenses in the statement of Income and Expenditure.

13 TAXATION

Organization is registered under Section 12AB of Income Tax Act and as such is exempt from taxation of its income and gains.

INDEPENDENT AUDITOR'S REPORT

To,
The Members of Governing Body of
M/s. Swami Vivekananda Youth Movement

1. Opinion

We have audited the Financial Statements of **M/s. Swami Vivekananda Youth Movement**, which comprise the Balance Sheet as at 31st March, 2021, the Statement of Income & Expenditure for the year then ended, the Receipts and Payments Account for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

3. In the case of the Balance Sheet, of the state of affairs of the Institution as at 31st March 2021;
4. In the case of the Statement of Income & Expenditure, of the Excess of Expenditure over Income for the year ended on that date; and
5. In the case of Receipts and Payment Accounts, of the cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the entity in accordance with the Code of Ethics issued by ICAI and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs and the results of operations of the entity in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

- In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.
- Those charged with governance are responsible for overseeing the entity's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- v. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a

basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- vi. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- vii. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- viii. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

1.6 SUPPORT SERVICES

Support Services are a set of auxiliary services provided at the campuses of the Organization. These services include maintenance of fixed assets, facility management, transport, central material store, agricultural, office services & canteen.

2. BASIS OF PRESENTATION

Organization presents its accounts in accordance with the Fund Based Accounting System. All the figures reported in Financial Statements are in Indian Rupee. 'Generally Accepted Accounting Principles (GAAP)' applicable in India are followed. Accounts have been prepared on going concern basis under historical cost convention. Organization follows accrual system of accounting unless stated otherwise. The preparation of financial statements requires Organization to make estimates and assumptions that affect the figures reported in Balance Sheet and Income & Expenditure Account. The actual results could differ from these estimates.

3. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements of the Organization include accounts of foreign contribution and contributions under Section 80G of Income Tax Act, 1961.

4. FUND ACCOUNTING

Organization has followed the principle of having separate funds for each of the Program Focus Areas. Funds available under each Program Focus Area are classified into three categories pursuant to donor-imposed restrictions, Organizational policies & applicable law — Restricted Funds, Designated Funds & Unrestricted Fund.

4.1 Restricted Funds

Restricted funds are funds whose use has been limited by donors or applicable law to a specific time period and/or for a specific purpose. As & when the restrictions are satisfied, funds to that extent are transferred to Income & Expenditure Account in case of revenue expenditure and Asset Fund in case of capital expenditure.

4.1.1 Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.

4.1.2 Staff Benefit Funds are funds set aside as per applicable law and Organization's policy, to provide for retirement benefits and other welfare measures to the employees of the Organization.

4.1.2.1 Defined Contribution Plans: - Provident Fund

Organization has defined contribution plans for post-employment benefits in the form of Provident Fund for all the employees which is administered by Regional Provident Fund Commissioner. Contribution to Provident Fund is charged to Income and Expenditure account. Organization has no obligation (both formal and informal) over and above the contribution made to the fund.

4.1.2.2 Defined Benefit Plan: - Gratuity Fund

The Organization provides for gratuity, a defined benefit plan covering all eligible employees. The plan provides lump sum payment to eligible employees at retirement or termination of employment based on the salary of respective employee and years of employment with the Organization.

The Organization invests the Gratuity Fund contribution in approved Bonds and term deposits. The amount of contribution is determined based upon actuarial valuation at the balance sheet date, carried out by an independent actuary. This contribution is charged off to the Income and Expenditure account. Projected Unit Credit Method is used for valuation of gratuity for actuarial valuation.

4.1.2.3 Leave Encashment fund represents the accrued liability provided in accordance with the Organization's policy.

4.1.3 Earmarked Funds are expendable funds, uses of which are specified by the donors or applicable law.

4.1.4 Asset Fund

Asset Funds represent non-expendable funds invested in fixed assets (Net Block) for use by Organization's activities and it is not available for any other purpose. Funds utilized for capital expenditure are transferred from their sources (source may be of specified contribution, general contribution) to Asset fund at the time of capitalization. In case of assets financed by loan funds an amount equal to the actual loan repaid during the year is transferred to the Asset fund. Annually, the amount equal to the reduction in gross block of fixed assets on account of depreciation is transferred from Asset fund to Income and expenditure account.

4.2 Designated Funds

These are unrestricted funds set aside by the Governing Body for specific purposes and to meet future needs of the present commitments.

4.2.1 Endowment Funds are non-expendable funds subject to stipulation that the principal is maintained and invested in perpetuity and earnings on investment are to be used for specified purposes. Governing Body of the Organization recommends the interest rate that needs to be allocated to Endowment at the end of each financial year taking into consideration average earning on investment and other administrative expenses. Any unutilized earning at the end of the year is added back to the endowment principal.

4.2.2 Earmarked Funds are expendable funds as per the purpose specified by the Governing body.

4.2.3 Asset Replacement Fund is an expendable fund used for the major repairs & replacement of the fixed assets. When an asset is sold, retired or transferred, the equivalent amount is transferred from Asset fund to this fund. The rent collected from the facilities owned by the Organization is credited to this fund.

4.2.4 General Operating Fund is used to meet the working capital needs of the Organization. This fund is also used to meet the expenses incurred during the time gap between commencement of an externally funded project and actual receipt of funds; on reimbursable basis.

4.2.5 Revolving Fund it is a revolving fund which is used to meet seed money/ initial deposit / working capital for entrepreneurial initiatives identified through structured selection process as detailed in the fund guidelines.

4.3 Unrestricted Fund

4.3.1 General Fund: These are unconditional expendable funds available for use at the discretion of Governing Body for furtherance of Organization's objectives. These funds are neither restricted by donor nor designated for specific purpose by the Governing Body. All unrestricted unutilized donations are credited to General Fund. Surplus or deficit arising out of the operations in each of the Program Focus Areas is adjusted against their respective general fund. It is assumed that at times fluctuations will occur in projected income and expenditure; which cannot be fully anticipated during the planning process. In the light of such circumstances, it is the policy of the Organization to maintain a prudent level of General Fund to provide stability and flexibility.

5. ACCOUNTING OF INCOME AND EXPENDITURE

- **Revenue Recognition**
 - All the incomes are recognized when Organization is legally entitled to collect it and amount can be quantified with reasonable accuracy, on an accrual basis.
 - Interest on deployment of funds is recognized using the time proportion method, based on the underlying interest rates.
 - Revenue from training is recognized on rendering of service or completion of training.
 - Membership fees from members are accounted on actual receipt basis. Life membership fee is treated as a designated endowment fund.
- **General Contribution** includes unspecified donations received in cash or kind.
- **Earmarked Funds** received towards recurrent expenditure are credited to specific income accounts to the extent restrictions are satisfied.
- **Income from activities** includes user charges, training & consultancy fees for the services rendered.
- **Net Movement in Funds** represents the surplus/deficit arising from operations under each of the Program Focus Area during the year and is adjusted against the respective fund balances.

6. FIXED ASSETS

Fixed Assets are shown at cost and donations in kind are capitalized at nominal value. Maintenance, repairs and investment in minor asset are charged off to Statement of Income & Expenditure. That expenditure which will materially increase the value of the asset or extend its useful life is capitalized. The assets which have fulfilled their useful life are retired at the book value and is charged to Statement of Income & Expenditure. Amounts realized on sale of assets to the extent of net book value are credited to the asset account. Profit or loss resultant to the sale is charged to the Statement of Income and Expenditure.

Investments are made in accordance with provisions under Section 11 of Income tax Act, 1961, Investments of all the funds are pooled together. Each participating fund enters & withdraws from the pool based on fund movement. Investments are stated at cost with accrued interest.

11. BORROWING COST

Borrowing cost that is specifically attributable to the acquisition, construction or production of qualifying assets is capitalized as part of the cost of such asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. Other borrowing costs are recognized as an expense in the period in which they are incurred.

12. ACCOUNTING OF LEASE

Leases where the lessor effectively retains substantially all the risks and benefits of the ownership over the lease term are classified as operating lease. Operating lease payments are recognized as expenses in the statement of Income and Expenditure.

13. TAXATION

Organization is registered under Section 12AB of Income Tax Act and as such is exempt from taxation of its income and gains.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL POSITIONS AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our financial statements included in the Final Fund Raising Document. You should also read the section entitled “Risk Factors” beginning on page 14, which discusses several factors, risks and contingencies that could affect our financial condition and results of operations. The following discussion relates to our Society and is based on our financial statements, which have been prepared in accordance with Indian GAAP. Portions of the following discussion are also based on internally prepared statistical information and on other sources.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those described under “Risk Factors” and “Forward Looking Statements” beginning on pages 14 and 11 respectively, and elsewhere in this Final Fund Raising Document. Accordingly, the degree to which the financial statements in this Final Fund Raising Document will provide meaningful information depend entirely on such potential investor's level of familiarity with Indian accounting practices.

OVERVIEW

Swami Vivekananda Youth Movement (SVYM) is a development organization in India committed to creating a caring and equitable society. Through grassroots to policy level actions in Health, Education, Socio-Economic Empowerment, Training, and Research, SVYM aims to achieve community-driven development. The organization focuses on promoting charity, providing medical assistance, promoting health, education, and family planning, and actively engaging in civic and socio-economic welfare. SVYM's inclusive initiatives span across tribal, rural, and urban areas, irrespective of caste or religion.

C. Other Incomes:

Our Income other than contributions mainly comprises of Income from activities such as community contribution and support service. Other than this, it also comprises of Interest Income.

D. Expenditure:

Our Expenditure for the latest fiscal year comprises of expenditure on overheads, capital expenses, debt servicing costs, program direct cost and expenditure on depreciation. The bifurcation of the said expenditure has been shown in the figure below.

An analysis of reasons for the changes in significant items of income and expenditure is given hereunder:

1. *Unusual or infrequent events or transactions*

To our knowledge there have been no unusual or infrequent events or transactions that have taken place during the last three years other than shut down of our operations due to COVID-19.

2. *Significant economic changes that materially affected or are likely to affect outcomes of our continuing operations.*

Our operations have been subject, and we expect it to continue to be subject to significant economic changes arising from the uncertainties described in the section entitled "Risk Factors" beginning on page 14 of this Final Fund Raising Document. To our knowledge, except as we have described in this Final Fund Raising Document, there are no known factors which we expect to bring about significant economic changes.

3. *Known trends or uncertainties that have had or are expected to have a material adverse impact on outcomes of our continuing operations.*

Apart from the risks as disclosed under Section titled “Risk Factors” beginning on page 14 in this Final Fund Raising Document, in our opinion there are no other known trends or uncertainties that have had or are expected to have a material adverse impact on outcomes of our continuing operations.

DETAILS OF PENDING MATERIAL LITIGATIONS

As on the date of this Final Fund Raising Document, except as stated below, our Society, Founder and officers of the Governing Body are not party to any pending litigation the outcome of which could have a material adverse effect on the financial position of our Society, which may affect the issue or the investor's decision to invest / continue to invest in the Issue;

A. SOCIETY

- **Civil Litigations by the Society:** Ms. Sharadamma donated a property to SVYM for charitable activities. Property was bought out of self-generated income but her brother filed a case even though doesn't have any stake in the property. Both her brother and his wife died and now only their daughter is alive and case is still pending. The Case was filed against the Society and others by Narasappa C (Petitioner) under City Civil and Sessions Judge, Karnataka, India. The Plaintiff filed this case for partition and separate possession and cancellation of will date 13 July 2012. The respondents contested the case on merits by filing written statement and argued that the case was not maintainable as the Plaintiff had already filed a suit in OS No. 8088/2013 for permanent injunction and another suit in O.S./5123/2012 in respect of the same subject matter. However, the Plaintiff stated that the cause of action in both the cases were entirely different. The court subsequently ordered that the Plaintiff was at liberty to prosecute this case.

Applicants' PAN, Depository Account and Bank Account Details

ALL APPLICANTS APPLYING FOR ALLOTMENT OF THE ZCZP INSTRUMENTS SHOULD MENTION THEIR DP ID, CLIENT ID AND PAN IN THE APPLICATION FORM. APPLICANTS MUST ENSURE THAT THE DP ID, CLIENT ID AND PAN GIVEN IN THE APPLICATION FORM IS EXACTLY THE SAME AS THE DP ID, CLIENT ID AND PAN AVAILABLE IN THE DEPOSITORY DATABASE.

On the basis of the DP ID, Client ID and PAN provided by them in the Application Form, the Registrar to the Issue will obtain from the Depository the Demographic Details of the Applicants including PAN and MICR code. These Demographic Details would be used for giving Allotment Advice to the Applicants. Hence, Applicants are advised to immediately update their Demographic Details (including bank account details) as appearing on the records of the Depository Participant and ensure that they are true and correct. Please note that failure to do so could result in delays in authorizing, to Applicants, delivery of Allotment Advice at the Applicants' sole risk, and neither the Registrar, nor our Society shall have any responsibility and undertake any liability for the same.

These Demographic Details would be used for all correspondence with the Applicants including mailing of the Allotment Advice. The Demographic Details given by Applicants in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to this Issue. By signing the Application Form, Applicants applying for the ZCZP Instruments would be deemed to have authorized the Depositories to provide, upon request, to the Registrar, the required Demographic Details as available on its records.

Allotment Advice would be mailed by post or e-mail at the address of the Applicants in accordance with the Demographic Details received from the Depositories. Applicants may note that delivery of Allotment Advice may get delayed if the same once sent to the address obtained from the Depositories are returned undelivered. Further, please note that any such delay shall be at such Applicants' sole risk and neither our Society, nor the Registrar to the Issue shall be liable to compensate the Applicant for any losses caused to the Applicants due to any such delay or liable to pay any interest for such delay.

In case of Applications made under powers of attorney, our Society in its absolute discretion, reserves the right to permit the holder of a power of attorney to request the Registrar to the Issue that for the purpose of printing particulars on and mailing of the Allotment Advice through post, the Demographic Details obtained from the Depository of the Applicant shall be used.

With effect from August 16, 2010, the beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of ZCZP Instruments pursuant to this Issue will be made into the accounts of the Applicants.

Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected.

Applicants should note that the ZCZP Instruments will be allotted to all successful Applicants only in dematerialized form. The Application Forms which do not have the details of the Applicant's depository account, including DP ID, Client ID and PAN, shall be treated as incomplete and will be rejected.

INSTRUCTIONS FOR FILLING-UP THE APPLICATION FORM

General Instructions

A. General instructions for completing the Application Form

- Applications must be made in prescribed Application Form only;
- Application Forms must be completed in block letters in English, as per the instructions contained in this Final Fund-Raising Document and the Application Form;
- Applicants must apply for Allotment in dematerialised form and must provide details of valid and active DPID, Client ID and PAN clearly and without error. On the basis of such Applicant's active DP ID, Client ID and PAN provided in the Application Form
- The minimum number of Applications and minimum application size shall be specified in the Fund-Raising Document.
- Applications should be in single name. If the depository account is held in joint names, the Application Form should contain the name and PAN of the person whose name appears first in the depository account and signature of only this person would be required in the Application Form. This Applicant would be deemed to have signed on behalf of joint holders and would be required to give confirmation to this effect in the Application Form;
- Applications should be made by Karta in case of HUFs. Applicants are required to ensure that the PAN details of the HUF are mentioned and not those of the Karta;
- Thumb impressions and signatures other than in English/Hindi/Gujarati/Marathi or any other languages specified in the 8th Schedule of the Constitution need to be attested by a Magistrate or Notary Public or a Special Executive Magistrate under his/her seal;
- No separate receipts will be issued for the money payable on the submission of the Application Form.
- Every Applicant should hold valid Permanent Account Number (PAN) and mention the same in the Application Form;
- All Applications where payment is being made by cheque / demand draft should be submitted to the Registrar to the Issue

before the Issue Closing Date. Further, Applications where payment is being made by electronic bank transfer should reach the Registrar to the Issue within up to 3 (three) Working Days from the Issue Closing Date, provided that such extended time shall be available only if the Application Amount has been received in the Escrow Account prior to the Issue Closing Date.

Applicants should note that the Registrar will not be liable for error in data entry due to incomplete or illegible Application Forms. Our Society would allot the ZCZP Instruments, as specified in the Fund Raising Document for the Issue to all valid Applications`.

Our Society would allot the series of ZCZP Instruments, as specified in the Fund Raising Document to all valid Applications.

B. Applicant's Beneficiary Account and Bank Account Details

Applicants applying for Allotment in dematerialized form must mention their DP ID, Client ID and PAN in the Application Form and ensure that the name provided in the Application Form is exactly the same as the name in which the Beneficiary Account is held. In case the Application Form for Allotment in dematerialized form is submitted in the first Applicant's name, it should be ensured that the Beneficiary Account is held in the same joint names and in the same sequence in which they appear in the Application Form. In case the DP ID, Client ID and PAN mentioned in the Application Form for Allotment in dematerialized form do not match with the DP ID, Client ID and PAN available in the Depository database or in case PAN is not available in the Depository database, the Application Form for Allotment in dematerialized form is liable to be rejected. Further, Application Forms submitted by Applicants applying for Allotment in dematerialized form, whose beneficiary accounts are inactive, will be rejected.

On the basis of the DP ID and Client ID provided by the Applicant in the Application Form for Allotment in dematerialized form, the Registrar to the Issue will obtain from the Depositories the Demographic Details of the Applicant including PAN, address, Magnetic Ink Character Recognition ("MICR") Code and occupation. These Demographic Details would be used for giving Allotment Advice and refunds (including through physical refund warrants, direct credit, NACH, NEFT and RTGS), if any, to the Applicants. Hence, Applicants are advised to immediately update their Demographic Details as appearing on the records of the DP and ensure that they are true and correct, and carefully fill in their Beneficiary Account details in the Application Form. Failure to do so could result in delays in dispatch/credit of refunds to Applicants and delivery of Allotment Advice at the Applicants' sole risk, and neither our Society, Registrar to the Issue nor the Stock Exchanges will bear any responsibility or liability for the same. The Demographic Details would be used for correspondence with the Applicants including mailing of the Allotment Advice. Allotment Advice would be mailed at the address of the Applicant as per the Demographic Details received from the Depositories.

In case of Applications made under power of attorney, our Society in its absolute discretion, reserves the right to permit the holder of Power of Attorney to request the Registrar that for the purpose of printing particulars on the mailing of Allotment Advice, the demographic details obtained from the Depository of the Applicant shall be used. By signing the Application Form, the Applicant would have deemed to have authorized the Depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records. The Demographic Details given by Applicant in the Application Form would not be used for any other purpose by the Registrar to the Issue except in relation to the Issue.

The beneficiary accounts of Applicants for whom PAN details have not been verified shall be suspended for credit and no credit of ZCZP Instruments pursuant to the Issue will be made into the accounts of such Applicants. Application Forms submitted by Applicants whose beneficiary accounts are inactive shall be rejected. Furthermore, in case no corresponding record is available with the Depositories, which matches the three parameters, namely, DP ID, Client ID and PAN, then such Application are liable to be rejected.

C. Permanent Account Number ("PAN")

The Applicant should mention his or her PAN allotted under the IT Act. For minor Applicants, applying through the guardian, it is mandatory to mention the PAN of the minor Applicant. However, Applications on behalf of the Central or State Government officials and the officials appointed by the courts in terms of a SEBI circular dated June 30, 2008, and Applicants residing in the state of Sikkim who in terms of a SEBI circular dated July 20, 2006, may be exempt from specifying their PAN for transacting in the securities market. In accordance with Circular No. MRD/DOP/Cir- 05/2007 dated April 27, 2007, issued by SEBI, the PAN would be the sole identification number for the participants transacting in the securities market, irrespective of the amount of transaction. Any Application Form, without the PAN is liable to be rejected, irrespective of the amount of transaction. It is to be specifically noted that the Applicants should not submit the GIR number instead of the PAN as the Application is liable to be rejected on this ground.

However, the exemption for the Central or State Government and the officials appointed by the courts and for investors residing in the State of Sikkim is subject to the Depository Participants' verifying the veracity of such claims by collecting sufficient documentary evidence in support of their claims. At the time of ascertaining the validity of these Applications, the Registrar to the Issue will check under the Depository records for the appropriate description under the PAN field i.e., either Sikkim category or exempt category.

- Applications being received upon expiry of 3 (three) Working Days where the payment of the Application Amount is being done by way of electronic bank transfer, provided the Application Amount was received in the Escrow Account prior to the Issue Closing Date.

Mode of making refunds

The Registrar to the Issue shall make refunds to the relevant bank accounts of the Applicants as per the Demographic details given by the Depositories.

The mode of refund shall be undertaken in the following order of preference:

1. Direct Credit

Applicants having their bank account with the Escrow Collection Bank, shall be eligible to receive refunds, if any, through direct credit. The refund amount, if any, would be credited directly to their bank account with the Escrow Collection Bank.

2. NACH

National Automated Clearing House which is a consolidated system of ECS. Payment of refund would be done through NACH for Applicants having an account at one of the centers specified by the RBI, where such facility has been made available. This would be subject to availability of complete bank account details including Magnetic Ink Character Recognition (MICR) code wherever

applicable from the depository. The payment of refund through NACH is mandatory for Applicants having a bank account at any of the centers where NACH facility has been made available by the RBI (subject to availability of all information for crediting the refund through NACH including the MICR code as appearing on a cheque leaf, from the depositories), except where applicant is otherwise disclosed as eligible to get refunds through NEFT or Direct Credit or RTGS.

3. RTGS

Applicants having a bank account with a participating bank and whose refund amounts exceed ₹200,000, or such amount as may be fixed by RBI from time to time, have the option to receive refund through RTGS. Such eligible Applicants who indicate their preference to receive refund through RTGS are required to provide the Indian Financial System Code (“**IFSC**”) in the Application Form or intimate our Society and the Registrar to the Issue at least seven days prior to the Record Date. Charges, if any, levied by the Applicant’s bank receiving the credit would be borne by the Applicant. In the event the same is not provided, refund shall be made through NACH subject to availability of complete bank account details for the same as stated above.

4. NEFT

Payment of refunds shall be undertaken through NEFT wherever the Applicants’ banks have been assigned the IFSC, which can be linked to a Magnetic Ink Character Recognition (“**MICR**”), if any, available to that particular bank branch. The IFSC Code will be obtained from the website of RBI as on a date immediately prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the demat account, the same will be duly mapped with the IFSC of that particular bank branch and the payment of refund will be made to the applicants through this method.

Basis of Allotment

If the Issue is oversubscribed (i.e., if the subscription received is greater than the Issue Size), the allocation of ZCZP Instruments, in consultation with the Designated Stock Exchange, shall be on a proportionate basis.

Issuance of Allotment Advice

Our Society shall ensure dispatch of Allotment Advice as per the Demographic Details received from the Depositories within 8-10 Working Days of the Issue Closing Date. Instructions for credit of ZCZP Instruments to the beneficiary account with Depository Participants shall be made within 8-10 Working Days of the Issue Closing Date. Our Society will provide adequate funds required for dispatch of Allotment Advice, as applicable, to the Registrar to the Issue.

Investor Withdrawals and Pre-closure

Investor Withdrawal: Applicants can withdraw their Applications till the Issue Closing Date by submitting a request for the same to the Registrar, through whom the Application had been placed. In case an Applicant wishes to withdraw the Application after the Issue Closing Date, the same can be done by submitting a withdrawal request to the Registrar to the Issue prior to the finalization of the Basis of Allotment.

Pre-closure: Our Society reserves the right to close the Issue at any time prior to the Issue Closing Date, subject to receipt of minimum subscription or as may be specified in the Final Fund Raising Document. Our Society shall allot ZCZP Instruments with respect to the Applications received until the time of such pre-closure in accordance with the Basis of Allotment as described hereinabove and subject to applicable statutory and/or regulatory requirements. In the event of such early closure of the Issue, our Society shall ensure that public notice of such early closure is published on or before such early date of closure or the Issue Closing Date, as applicable, through advertisement(s) in all those newspapers in which pre-issue advertisement have been given.

If our Society does not receive the minimum subscription of 75% of Issue Size prior to the Issue Closing Date the entire Application Amount shall be refunded to the Applicants.
